WEBCODE: MPI3709

Features:

- 40% open area, 1.5mm hole size
- Up to 1 year removable adhesive
- Good dimensional stability and adhesion level on glass substrates

Suitable Applications

- Window graphics
- Building wraps
- Retail and commercial signage
- POP displays

KEENCUT

THE WORLD'S FINEST CUTTING MACHINES

KEENCUT | CUTTING MACHINES

Straight Edge Rulers

A superb straight edge for use in marking, drawing, pen-lining, scoring or cutting. The Keencut Straight Edge is strong, precise and portable and comes fitted with two full-length grip strips to steady the straight edge and protect sensitive surfaces.

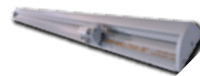

WEBCODE: KEENSE

Sabre Series 2

Constructed of a robust anodised aluminium. Silicon rubber grip strips in the base and underside of the cutter bar clamp materials when cutting, providing protection to even the most sensitive surfaces. Self-adjusting hinges give lay-flat cutting on all materials up to 13mm thick.

WEBCODE: KEENSAB

Javelin Series 2

Portable, precision wide-format cutter bars designed for the most demanding standards of accuracy. Silicon rubber grip strips ensure all work is clamped when cutting and also protects the surface of the material. Ideal for cutting banner, pop-ups and other display materials.

WEBCODE: KEENJAV

Steeltrak

SteelTrak is the strongest and most versatile manual heavy-duty cutter, providing quick and accurate cutting of a wide variety of your most common substrates. Engineered for toughness and durability.

WEBCODE: KEENST

Technic Advanced Rotary Cutter

A unique sub-surface monorail bearing system that gives a clear view of the cut line. Does not distort under heavy cutting pressure. Two clamp rollers provide secure double clamping during cutting with up to double the gripping effectiveness of any other rotary cutter.

WEBCODE: KEENTE

Technic Table Edge Advanced Rotary Cutter

Designed to fit the edge of your work surface. Cuts in both directions and has the added advantage of increasing the working area to enable easy alignment and effortless single-handed trimming.

WEBCODE: KEENTETE

Evolution E2

Designed to revolutionise the speed, accuracy, safety and convenience. The integral lift and hold mechanism of the Evolution E2, operates from either end enabling a single operator to load and align even the longest print jobs quickly and accurately.

WEBCODE: KEENEVO

ASLAN®

ASLAN | NEW TO GRAPHIC ART MART

Aslan DF 18 WindowClear

Aslan DF 18 WindowClear is a transparent 80 micron film with a semi-permanent acrylic pressure-sensitive adhesive. Ideal for large-surface applications as images do not need to be cropped, plotted and weeded. Offers up to 7 years durability (unprinted).

Features:

- Excellent transparency
- No need to crop, plot and weed large graphics
- Printable with solvent, eco-solvent, latex and UV inks

Suitable Applications:

- Glass and transparent dividers
- Shop front and POS
- Reverse glass application

WEBCODE: ASLDF18

Aslan DF 25 WindowBlock

Aslan DF 25 WindowBlock is a 180 micron self-adhesive digital printing film with removable white adhesive, offering a white surface on both sides of the glass. Material thickness allows for easy installation. Up to 3 years outdoor durability (unprinted).

Features:

- White on both sides offers opacity
- Ability to create double sided imagery by laminating to a reversely printed clear film
- Printable with solvent, eco-solvent, latex and UV inks

Suitable Applications:

- Shop front and POS
- Windows and other transparent surfaces

WEBCODE: ASLDF25

Aslan CR 63 Clear Chalkboard

Aslan CR 63 Clear Chalkboard Vinyl is a 120 micron textured film suited for changing writings such as set-menus in bars and restaurants. It is writable with chalk as well as the liquid chalk pen Aslan C-pen.

Features:

- Scratch resistant
- Chalk can be removed with a wet cloth
- Can be cut into shape

Suitable Applications:

- Restaurants and bars
- Schools

WEBCODE: ASLCR63CBBV

Aslan CR 60 Green Chalkboard

Aslan C 60 Green Chalkboard Vinyl is a 160 micron film where you can turn any surface into a memoboard. It can be written on with chalk as often as you like.

Features:

- Can be but into shape
- Chalk can be easily removed with a wet cloth
- Printable with UV inks and screen printing

Suitable Applications:

- Schools and offices
- Restaurants and bars
- Point of purchase

WEBCODE: ASLC60GBBV

Aslan CA 23 MetalEffect - New Colours Added

Aslan CA 23 MetalEffect are 50 micron films ideal for cut graphics on glass and other flat surfaces, either indoor or outdoor. Up to 3 years outdoor durability.

Features:

- Same effect on both sides
- Acrylic pressure sensitive adhesive
- Easy to handle

Suitable Applications:

- Interior design
- Glass
- Smooth surfaces
