# LAMINATORS

## FRANKLIN - 1600EMTN

The Franklin 1600 EMTN is a wide format laminating and mounting machine with heat assist. This heavy duty pressure sensitive laminator is designed to meet high capacity use while providing very high quality results. The Franklin has a powerful variable speed reversible motor and sturdy construction.

The Franklin 1600EMTN will easily mount to a thickness of 25mm with it's two large silicone rollers to give even pressure in every application.

Laminate or mount foam boards, sheet metal, reflective sheeting and digital printing, no job is to hard.

Product Specifications	FRANKLIN - 1600EMTN
Operation Method	Electric
Max Width	1600mm
Max Mounting Thickness	25mm
Speed Range (M / Min)	0 - 3.5
Power Supply	AC 240V / 50Hz
Press Adjustment Method	Combined
Machine Net Weight	208kg
Size (L x W x H)	2085 x 595 x 1180mm

# LAMINATORS

Easily laminate or mount foam boards, sheet metals, reflective media and digital prints with a Forte laminator

## TULLY - 1400EMN / 1600EMN

The Tully 1400EMN & 1600EMN are wide format cold laminating mounting machines. These heavy duty pressure sensitive laminators are designed to meet high capacity use while providing very high quality results.

The Tully 1400EMN & 1600EMN have a powerful variable speed reversible motor and sturdy construction.

The Tully 1400EMN & 1600EMN will easily mount to a thickness of 25mm with two large silicone rollers to give even pressure in every application.

Laminate or mount foam boards, sheet metal, reflective sheeting and digital printing, no job is too hard.
