

Excellent Blast Resistance - sandblasting stencil films from **ASLAN**

Quality
„Made in
Germany“

The ASLAN stencil films are tailored for a variety of sandblasting & shot peening jobs on stone, glass, pavers, various metals etc. Cut lines are clearly visible, supporting a quick and time-saving picking / weeding process.

Using our self-adhesive solutions, you will receive perfectly crisp and sharp-contoured results when producing deep images, letters, textures or satin finishes.

The robust and pressure-resistance material won't be destroyed by the blasting grit, protecting the covered areas. The film can remain on the stone for colorization of the blasted areas too. It removes clean and residue free thanks to the special ASLAN adhesive.

Sandblasting film for heavy duty works

Sandblast 330 ASLAN S 64 Stone

- 13 mil, grey opaque PVC film
- For medium depth sandblasting works
- Ensuring crisp & sharp contours
- Well suitable for CAD cutting
- Perfect for detailed and intricate designs
- Can remain on the stone for colorization
- Clean removal after blasting and coloring
- Shelf live: 3 years

Sandblasting film for very heavy duty works

Sandblast 600 ASLAN S 62 Stone

- 24 mil, creamy, translucent PVC film
- For deep sandblasting works
- Exact positioning, the stone remains visible through the film
- Ensuring crisp & sharp contours
- Well suitable for CAD and manual cutting
- Perfect for detailed and intricate designs
- Writable surface facilitates marking of areas that should be sandblasted
- Can remain on the stone for colorization
- Clean removal after blasting and coloring
- Shelf live: 3 years

ASLAN sandblasting films are...

...perfect for detailed and intricate designs

...ensuring crisp and sharp contours

...clean removable

Self-adhesive stencil films for sandblasting works

Sandblasting film for light and medium duty works

Sandblast 180 ASLAN S 68 Stone Glass

- 7 mil, grey PVC film, transparent
- Ensuring crisp & sharp contours
- Well suitable for CAD cutting
- Can remain on the stone for colorization
- Clean removal after blasting and coloring
- Shelf live: 3 years

Sandblasting film for light and medium duty work

Sandblast 230 ASLAN S 66 Stone Glass

- 9 mil, white opaque PVC film
- Ensuring crisp & sharp contours
- Well suitable for CAD cutting
- Can remain on the stone for colorization
- Clean removal after blasting and coloring
- Shelf live: 3 years

APPLICATION OF SINGLE LINER STENCILS

- 1 Cut the sandblasting film into the required shape

- 2 Apply the film onto stone/glass and remove the transfer tape

- 3 Sandblast

- 4 Optional: color the blasted area

- 5 Remove the film

- 6 Finished!
