

THE PROFESSIONAL SERIES OF LAMINATORS

FRANKLIN-1600EMTN

The Franklin 1600EMTN is a wide format cold laminating and mounting machine with heat assist. This heavy duty pressure sensitive laminator is designed to meet high capacity use while providing very high quality results. The Franklin has a powerful variable speed reversible motor and sturdy construction.

The Franklin 1600EMTN will easily mount to a thickness of 25mm with its two large Silicone rollers to give you an even pressure in every application.

Laminate or mount foam boards, sheet metal, reflective sheeting and digital printing, no job is too hard. The Franklin 1600EMTN will be an asset to any sign business.

For more information on the Forte Range visit us online at www.gamart.com or call us today on 1300 GAMART (426 278).

Variable Heat Assist

The Franklin 1600EMTN Laminator comes complete with a variable heat assisted top roller. The roller heats up to 60°C to help reduce silvering effect which can occur during the laminating process.

Product Specifications	FRANKLIN - 1600EMTN
Operation Method	Electric
Max Width	1600mm
Max Mounting Thickness	25mm
Speed Range (M / Min)	0 - 3.5
Power Supply	AC 240V / 50 Hz
Pressure Adjustment Method	Combined
Machine Net Weight	208
Size (L x W x H) mm	2085 x 595 x 1180
