

ECO-SOL MAX

Take Your Graphics to the MAX with ECO-SOL MAX INK

Introducing a remarkable innovation in ink technology. Building on Roland's award-winning eco-solvent ink, ECO-SOL MAX features several new enhancements including broader uncoated media support, faster drying time, higher density, wider color gamut, improved scratch resistance, and lower cost per square meter (foot). In addition, ECO-SOL MAX is virtually odorless, contains no harmful VOCs*, and does not require any special ventilation or environmental equipment.

- Quick drying time and improved scratch resistance for easy handling, fabricating and construction throughout the printing and finishing processes
- Wider color gamut for reds, blues and greens and higher density ensure a beautiful, glossy finish and rich, solid colors
- Lower production costs and expanded uncoated media support, including over 150 ICC profiles
- Ideal for indoor and outdoor applications, producing graphics that are durable up to three years outdoors without lamination**
- Virtually odorless and contains no harmful VOCs*

ECO-SOL MAX Inkjet Line

SOLJET PROII V Series

Sign Maker by Roland DG Corporation

The SOLJET PROII V series is Roland's most advanced line of wide-format printers and integrated printer/cutters. Built with V Technology, PROII V inkjets are available in four models supporting a range of high-volume applications—from large fine art and photography reproductions printed at 1440 x 1440 dpi to billboards produced at 360 x 360 dpi. Every PROII V includes Roland VersaWorks, comprehensive professional RIP software compatible with genuine Adobe PostScript® 3™.

SJ-1045IS

104" 6-color CMYKLcM or 4-color CMYK printer with IS-1000 high capacity ink delivery system
