Avery Dennison MPI 1105 Supercast Easy Apply RS™ Gloss

High Gloss White Film

Avery Dennison MPI 1105 Easy Apply RS™ is a 53 micron premium quality high gloss Supercast film with grey long term removable acrylic adhesive. Supercast technology ensures superior conformability to irregular surfaces, including deep channels and recesses, rivets and corrugations. The Easy Apply RS™ adhesive system with air-egress channels easily eliminates bubbles and wrinkles during application. The film slides smoothly on surface for exact positioning. MPI 1105 EA RS™ offers excellent printability on solvent, eco-solvent, latex and UV inks. Up to 10 years outdoor durability (unprinted).

Available as bundles with the following overlaminates:

Avery Dennison DOL 6460 Extreme Gloss

Gloss Polyurethane Overlaminates

Avery Dennison's DOL 6460 is a 38 micron premium quality extreme gloss polyurethane overlaminates. DOL 6460 offers increased scratch, abrasion and stone chip resistance as well as superior conformability to irregular surfaces, outstanding durability and outdoor performance including a 3 year horizontal warranty.

	Pack Size	Pack Type	Pack Price
Avery Dennison MPI 1105 EA RS™ Gloss + Avery Dennison DOL 6460 Extreme Gloss WEBCODE: MPI1105RSKITS	1372mm x 22m	Gloss	\$1484.79

Arlon SLX[®]+

Permanent Repositionable Cast Film with FLITE Technology™

SLX[®]+ is a 50 micron premium gloss white cast film with FLITE Technology[®]. Designed for full and partial vehicle wraps and fleet applications, SLX+ features an optimal initial tack to ensure high repositionability with quick anchoring and build a strong bond while removing clean at the end of the wrap life. The optimized performance of SLX+ improves all-weather application performance and cutting & weeding, while maintaining a high conformability in complex areas such as rivets, curves, and deep channels. SLX+ has a tinted, permanent pressure-sensitive adhesive that provides excellent opacity and a low profile air egress liner that aids in easy installation and provides a smooth finish. SLX+ is rated for outdoor durability up to 10 years (unprinted).

Available as bundles with the following overlaminates:

Arlon AL 3310 Gloss

Gloss Polyurethane Overlaminates

Arlon AL 3310 series is a 38 micron, gloss polyurethane film with a clear, permanent pressure-sensitive adhesive. Series 3310 is designed as a multi-purpose extended life laminate, recommended for fleet and vehicle applications. You can expect up to 10 years vertical exposure and up to 4 years horizontal exposure.

	Pack Size	Pack Type	Pack Price
Arlon SLX [®] + and Arlon AL 3310 Gloss WEBCODE: SLXPLUSKITS	1372mm x 45m	Gloss	\$2239.95

Arlon DPF V9700 + V3370

Premium Non-PVC Digital Film with FLITE Technology[®]

DPF V9700 is a premium, 2-mil (50 micron) printable non-PVC film cast with a water-based formulation. Featuring FLITE technology, this film provides an optimal initial tack to ensure high repositionability with quick anchoring, and builds a strong bond while removing clean at the end of the wrap's life. DPF V9700 maintains a high conformability in complex areas such as rivets, curves, and deep channels*. This makes the film ideal for partial, full vehicle and fleet applications. DPF V9700 is available in a high-gloss finish and provides an enhanced structural stability that minimizes curling of the edges when heated. This polyurethane printable film offers an extended durability of up to 12 years (unprinted), and is compatible with Eco-Solvent, Solvent, Latex, and UV print systems.

Series V3370 is a premium, 1.5-mil (38 micron) non-PVC film cast with a water-based formulation and coated with a clear, permanent pressure-sensitive adhesive. This polyurethane overlaminate creates long-lasting graphics by having an extended durability of up to 12 years (unprinted), a high-gloss finish with high gloss retention, and scratch recovery properties.

Arlon DPF V9700 - PVC Free

Gloss White Premium Non-PVC Digital Film with FLITE Technology®

DPF V9700 is a premium, 2-mil (50 micron) printable non-PVC film cast with a water-based formulation. Featuring FLITE Technology, this film provides an optimal initial tack to ensure high repositionability with quick anchoring, and builds a strong bond while removing clean at the end of the wrap's life. DPF V9700 maintains a high conformability in complex areas such as rivets, curves, and deep channels*. This makes the film ideal for partial, full vehicle and fleet applications. DPF V9700 is available in a high-gloss finish and provides an enhanced structural stability that minimizes curling of the edges when heated. This polyurethane printable film offers an extended durability of up to 12 years (unprinted), and is compatible with Eco-Solvent, Solvent, Latex, and UV print systems. * Arlon recommends the no-stretch/inside first technique for optimal installation experience. Please reach out to local technical contact for training and questions.

PhotoTex Standard and PhotoTex Blockout

Removable / Reusable Semi-Adhesive Fabric Textile Films

PhotoTex Standard (S) is a 240gsm peel and stick, patented, polyester fabric, adhesive media material that can be installed on virtually any surface (except non painted brick). It can be illuminated with a backlight, re-positioned and re-used as it will not leave a sticky residue against 99% of any surface when removed. PhotoTex Blockout (OPAS) features a 99% blockout and has a brighter white point. Printable with eco-solvent, solvent, latex and UV inks. Please note PhotoTex (OPAS) has an outdoor requirement of 40 degrees or higher to avoid residue of blockout coating. 6-12 months outdoor durability.

Sihl 2513 Design2Wall Prepasted Non-Woven SOL 225

225gsm Satin Printable Prepasted Wallpaper with Water Activated Adhesive

Sihl 2513 is a 225gsm high quality satin finish wallpaper media with a water activated adhesive. Features high scratch resistance PVC-free, FSC certified, good handling, high colour brilliance and a fast drying time. Prepasted technology means the printed wallpaper needs to be soaked with water before hanging for an easy wet application. When printed with eco-solvent inks and soaked in water the special prepasted technology reacts with the ink and becomes water resistant with no liquid lamination is necessary. Printable using solvent, eco-solvent and latex inks.

Arlon DPF 8200X White High Tack AE

Satin White Film with Permanent High Tack Adhesive

Arlon DPF 8200X High Tack is a 90 micron satin white, high-tensile, PVC film with aggressive, bubble releasing permanent pressure-sensitive adhesive. The film is made of a 100% engineering-grade facestock with a polycoated, low profile air-egress lay-flat liner. The unique low shrink adhesive system enhances dimensional stability, improving printer handling and converting time. Designed to adhere to slightly textured outdoor wall substrates such as brick, tile, and concrete, the film also has exceptional performance on low surface energy substrates such as polypropylene, polyethylene, and powder coated paints. DPF 8200X High Tack is rated for outdoor durability up to 7 years* (unprinted). Using Arlon's recommended installation tips for walls, the film conforms well to flat surfaces with slight contours.

CANVAS

SiHL 3609 Picasso Canvas

370gsm Canvas Media

SiHL 3609 Picasso Canvas is a 370gsm satin single side coated artistic canvas for highest quality graphic arts applications. Due to the special coating, this high-end canvas is suitable for heavy ink-loads and uniform area-prints also in critical colour-tones. The drying time is excellent and the ink-fixation on the surface is optimised in the coating. The coated surface is water-repellent and the light stability with common eco-solvent and solvent inks is excellent. The fixation of the ink to the surface is very strong and the UV-lamps can be run on reduced performance (low) to avoid high temperatures and a possible cracking of the inks. Main applications are for indoor only. Compatible with eco-solvent, solvent and UV curable inks.

	Roll Size	Roll Price
SiHL 3609 Picasso WEBCODE: SIHL3609	762mm x 15m	\$339.67

Arlon V3370 Gloss

Gloss Overlaminates

Series V3370 is a premium, 1.5-mil (38 micron) non-PVC film cast with a water-based formulation and coated with a clear, permanent pressure-sensitive adhesive. This polyurethane overlaminate creates long-lasting graphics by having an extended durability of up to 12 years (unprinted), a high-gloss finish with high gloss retention, and scratch recovery properties. Series V3370 has superior resistance against harsher chemicals such as: IPA, ethanol, gasoline, ethyl acetate, and various cleaners. Potential rework and scrap are minimized due to the overlaminate's high heat tolerance that reduces the risk of burning the film, and facefilm not sticking to itself after heat is applied, which eliminates damage to the graphic. The film is fire tested under ASTM E-84 with a Class A rating.

	Roll Size	Sell Unit	Roll Price
Arlon V3370	1372mm x 45m	Roll	\$1136.64

SACRIFICIAL UNDERLAY

ALC PET Ultra Thin Liner

Sacrificial Underlay for Cold Lamination

ALC Sacrificial Underlay PET Ultra Thin is a 25 micron, PET polyester sacrificial underlay, that is ideal for single-sided cold laminating films. The liner ensures that there is less bulk waste disposal than when using paper liner, and if creases do occur they won't transfer to the surface of the image.

	Size	Price
ALC PET Ultra Thin Liner WEBCODE: ALCPL	1430mm x 400mm	\$328.76
	1530mm x 400mm	\$348.88

Aslan SC 123 Sparkle Colour

Short Term Glittering Self-Adhesive Decorative Film

A 350 µm thick PET film containing particles of glitter that gives it an incredible sparkly effect. In fact, the unusually high level of glitter particles offer the perfect light reflection to its maximum effect. The film is available in the colours black, white, gold, silver, red and green. It is suitable for use on all smooth surfaces, bringing a touch of glamour to shop displays, architecture features and trade fair designs. Ideal for use on glass as the colour effect is double sided with only a slightly reduced glitter effect on the back.

Avery Dennison Supreme Wrapping Film

High Performance Supercast Film

Avery Dennison Supreme Wrapping Film is an 80 micron supercast vinyl with permanent adhesive with Easy Apply RS™ and LTR (Long Term Removability). The adhesive system has air-egress channels for fast and easy removal of entrapped air bubbles as well as RS technology, allowing the film to stand off the surface until pressure is applied. Available in a strong choice of colours; including Pantone matches with the option of custom colour matching. Up to 10 years outdoor durability (vertical exposure only), depending on the finish.

PVC-FREE CAST

Arlon DPF V9700 + V3370

Premium Non-PVC Digital Film with FLITE Technology®

DPF V9700 is a premium, 2-mil (50 micron) printable non-PVC film cast with a water-based formulation. Featuring FLITE technology, this film provides an optimal initial tack to ensure high repositionability with quick anchoring, and builds a strong bond while removing clean at the end of the wrap's life. DPF V9700 maintains a high conformability in complex areas such as rivets, curves, and deep channels*. This makes the film ideal for partial, full vehicle and fleet applications. DPF V9700 is available in a high-gloss finish and provides an enhanced structural stability that minimizes curling of the edges when heated. This polyurethane printable film offers an extended durability of up to 12 years (unprinted), and is compatible with Eco-Solvent, Solvent, Latex, and UV print systems.

Series V3370 is a premium, 1.5-mil (38 micron) non-PVC film cast with a water-based formulation and coated with a clear, permanent pressure-sensitive adhesive. This polyurethane overlaminate creates long-lasting graphics by having an extended durability of up to 12 years (unprinted), a high-gloss finish with high gloss retention, and scratch recovery properties.

Avery Dennison Supreme Wrap™ Care

Keep Avery Dennison Vehicle Graphic Films in Peak Condition

The premium finish made possible by Avery Dennison vehicle graphic films deserves the very best in after care - if it looks great, it should stay great. The Avery Dennison Dennison Wrap™ Care range includes a Cleaner, Power Cleaner and Sealant. These are professional grade products that are simple for anyone to use. They help matte, satin and gloss vehicle wraps cope with all the challenges of the road after leaving the workshop.

- Protects and cleans vehicle graphics
- Suitable for all car wrap finishes*
- Tested with all Avery Dennison vehicle films
- Easy to use water based products
- An alternative to traditional car wash
- No additional water required

* For matte finishes, it is advised to test the Sealant on a small area first (buff thoroughly into the film to avoid streaking)

Cleaner

General cleaning product for regular use – eliminates dust, light dirt, fingerprints and other marks.

Power Cleaner

Extra power to deal with difficult localised stains such as bird droppings, road grime, tree sap and much more.

Sealant

Provides a protective layer on the wrap, making it easier to clean off everyday challenges like dirt, bird droppings and tree sap.

Optimum results when used in combination, but can also be used separately.

Avery Dennison T-11500 OmniCube™ Series

Class 1W OmniCube™ Prismatic Films

Avery Dennison T-11500 OmniCube™ Series are microprismatic retro films that take full-cube sheeting to a new level. OmniCube full-cube prisms are 100% efficient – returning approximately 60% of the available light back to the driver compared to only 40% with other prismatic sheetings. OmniCube's Intelligent Cube Technology incorporates the needs of all vehicle types; trucks, SUVs, automobiles and motorcycles into one sheeting. OmniCube is an OmniDirectional microprismatic film that incorporates tiles of full-cube microprisms arranged in multiple orientations. This feature – “Smart at Every Angle” benefits agencies by providing confidence that all signs will perform with uniform visual reflectivity at all sign face orientations. Up to 12 years outdoor durability.

3M 7300 Series

Advanced Flexible Engineer Grade Sheeting

3M 7300 Series Advanced Flexible Engineer Grade Sheeting is a non-metallized (corrosion resistant), non-conductive, printable microprismatic sheeting. As manufactured by 3M, Sheeting meets the performance requirements of ASNZS 1906.1 for Class 100 sheeting. It has been specially designed to have high scratch resistance and is flexible and durable. The adhesive on the Sheeting has been designed for application to a variety of signing substrates including plywood, metal, and both flat and curved reboundable plastic substrates. Sheeting has been designed for use in the production of retro commercial signs, non-regulated traffic control signs that are exposed vertically in service and pressure sensitive stickers.

Arlon Illuminite Wrap

Gloss White Film

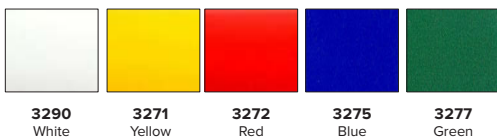

Arlon's IllumiNITE Wrap™ is a 125 micron printable vinyl film featuring FLITE Technology™. With its lite contact system, the film allows for a fast, repositionable install while maintaining the quality of the film. Using Arlon's recommended installation techniques, the film easily conforms to irregular and glides over smooth surfaces, enabling graphics to be brightly displayed day and night. IllumiNITE Wrap meets or exceeds the following standards for motor vehicles: ISO 7591-1982, DOT FP-85 - Section 718, and ASTM-D 4956, Spec. Type 1, Class 3. It is rated for outdoor durability up to 7 years (unprinted) for flat surfaces and up to 5 years (unprinted) for irregular surfaces. Printed durability is dependent on the ink system used.

Avery Dennison T-11513 Fluoro Yellow / Green OmniCube™ Prismatic

Permanent Edge Sealed Fluorescent Conspicuity Tape

Avery Dennison T-11513 Fluoro Yellow / Green Omnicube is a microprismatic retro edge sealed tape that takes full-cube sheeting to a new level. OmniCube full-cube prisms are 100% efficient – returning approximately 60% of the available light back to the driver compared to only 40% with other prismatic sheetings. OmniCube's Intelligent Cube Technology incorporates the needs of all vehicle types; trucks, SUVs, automobiles and motorcycles into one sheeting. OmniCube is an OmniDirectional microprismatic film that incorporates tiles of full-cube microprisms arranged in multiple orientations. This feature – “Smart at Every Angle” benefits agencies by providing confidence that all signs will perform with uniform visual reflectivity at all sign face orientations. Up to 12 years outdoor durability.

Chemica Opaqueprint SIR

Printable Opaque Subliblock Film

Chemica Opaqueprint SIR is a 120 micron matte white polyurethane heat transfer film with a transparent polyester liner. Manufactured with a total barrier to avoid sublimated ink migration. Chemica Opaqueprint SIR is a qualitative subli-block and opaque media, particularly adapted to the production of various designs, logos and crests. Ideal for applications on cotton, sublimated polyester and cotton/polyester blends. Printable with solvent and eco-solvent inks.

DIGITALLY PRINTABLE FILMS

Siser Colorprint

PVC Heat Transfer Film

Colorprint is a versatile PVC material designed for inkjet digital printing & cutting using solvent, ecosolvent, or HP Latex based inks. With an average thickness of 170 µm, it's ideal for applying logos and images onto untreated textiles like 100% polyester, 100% cotton, and poly/cotton blends.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price
Siser Colorprint WEBCODE: SISCPPUMP	500mm x 25m	Metre	\$19.92	\$18.11	\$16.46	\$411.5
	750mm x 25m		\$29.88	\$27.17	\$24.7	\$617.5

Siser Colorprint PU

Polyurethane Heat Transfer Film (Available in Matt and Gloss)

ColorPrint PU is a polyurethane based material which is Oeko-tex and VEGANOK certified. The thin and light material allows for eco solvent and solvent ink printing to create durable vibrant graphics to be cut on all craft cutters. ColorPrint PU can be used on a variety of fabrics, including cotton and spandex. Available in a matt or vivid version, rest assured your designs will pop!

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser Colorprint Extra

Polyurethane Heat Transfer Film

Colorprint Extra is thin and lights material perfect for those hard to use fabrics. Use Colorprint Extra on leather, nylon and silicone-based materials to get a durable print. The durable film will give you a vivid print when used with eco solvent and solvent based inks. A great alternative to screen-printing. Colorprint Extra works with all craft cutters.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser Hi-5 Print

Polyurethane Heat Transfer Film (Available in Matte and Vivid)

Due to its low temperature and press time, Hi-5 print is suitable for your heat-sensitive fabrics and difficult materials. Specially created for polyester-based fabrics that don't play well with heat, this 120°, 5 second press product will not only open doors to new garment possibilities but it'll also speed up your production time. Hi-5 is Oeko-Tex and VeganOK certified and perfect for Cotton, Polyester and Poly/Cotton Blends. Available in a matt or vivid finish.

Siser Sublithin Matte Low Temperature

Polyurethane Heat Transfer Film

Sublithin LT film was created to work with solvent, eco solvent and latex based inks. Compatible with all craft cutters, the Oeko-tex certified film has a specially designed polyester backing (barrier) to stop sublimation printed garments bleed into your printed designs. Therefore, you can keep the colour pure on your design you print and cut. Sublithin LT is a low temperature product so only 135 degrees is needed to press on to your project.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser Sublithin Soft Print

Polyurethane Heat Transfer Film

Perfect for Dye Sublimation, the Sublithin Soft has a black blocking back to eliminate any dye migration when the garment is pressed, keeping your prints clean and designs sharp. This product has been specifically formulated for sports garments such as sublimated jerseys and will work with most Eco-Solvent, Solvent and Latex-based inks. Sublithin Soft is approximately 160 microns thick and is not suitable for inkjet, Toner or Sublimation printers

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser Easy Subli

Thermo Transfer Film

Siser Easy Subli is a thermotransfer film with a plain polyester backing which is designed for sublimation ink printers. Easy Subli grants vibrant colours with a stunning thin design that will allow you to transform cotton fabrics with dye sublimation inks. Suitable for use on Cotton (all colours), white and light coloured polyester and poly/cotton blends, but not treated fabrics.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser DigiBrick

Polyurethane Heat Transfer Film

DigiBrick is a high thickness Heat Transfer Vinyl that is printable with Solvent, Eco-Solvent and UV based inks. It stands a whopping 750 microns (29.52mm) tall and has been designed to complement almost all projects with its smooth matte finish. DigiBrick especially suits had designs, faux patches, and any colour design that needs some dimension. It's suitable for materials such as Cotton, Polyester and Poly/Cotton Blends.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser Soft Print

Heat Transfer Film (Available in Matt and Vivid)

Siser Soft Print Color is 45 micron, super thin, with the stretchiest, soft feel to it. Create amazing images even on dark garments. Printable with solvent and eco solvent inks. Use Siser TTD Easy application tape to transfer the images. Even though the Soft Print Color is very thin, the material grants a high covering power on dark fabrics, with no compromise on colour quality. Available in both matt and vivid finish.

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser S-Print

Heat Transfer Film

S-Print is a thin water-based material which allows for low temperature application and a soft touch on your garment. The Oeko-tex and VEGANOK certified film (HTV) can be applied with as little as 120 degrees for 5 to 10 seconds (depending on material weight). Compatible with all craft cutters, simply print your design using an eco solvent, solvent or UV based ink to create a quality garment in minutes.

Siser P.S. Lumen

Glow in the Dark Heat Transfer Films

P.S. Lumen is available in white which glows green in the dark. It cuts and weeds just like our popular EasyWeed Heat Transfer Vinyl and has the same application settings. In order for the glow to take effect you need to 'charge' the material. You do this by exposing it to sunlight, the more sun it gets the brighter it stays for longer. This product is perfect for kids costumes, Halloween, and anything that needs that extra bit of glow!

	Roll Size	Sell Unit	1-9m	10-24m	25m+	Roll Price

Siser P.S. Adhesive

500mm Adhesive Carrier

Siser P.S. Adhesive is just like the Siser P.S. range with an adhesive carrier side and a material side. Be sure to remove the pink protective layer before cutting. The Carrier side is much smoother and shinier than the material side. The material side is just a layer of transparent glue, but not just any glue, Siser P.S. Adhesive. This P.S. Adhesive can be used with any screen printing foils as well as fabrics and other materials that lend themselves to adhesion. The cloudy appearance of the P.S. Adhesive turns clear when applied, and can be cut on any Vinyl cutter.

Sihl 3747 Vivalux PET

200 Micron Non-Adhesive Heavy Backlit Film

Sihl 3747 Vivalux PET is a 200 micron matte coated polyester backlit film specifically developed for use with latex inks. In combination with these inks the film allows a very high colour density and brilliance, quick drying and long durability. Prints are waterproof and suitable for outdoor use. Please note this product is only latex and UV ink compatible. HP Certified.

Sihl 3515 PolySOL Film

180 Micron Polyester Film

Sihl 3515 PolySOL is a 180 micron polyester display film with a satin finish and an instant dry, water resistant coating. Designed to be used unlaminated to create a retractable banner. It can also be overlaminated with both pressure sensitive and hot laminates to create a durable trade show panel engineered to withstand repeated rolling in portable display units without cupping, warping or scratching. Suitable for printing with eco-solvent, solvent UV and latex inks.

Sihl 3560 Backlit Plus 220 PET

180 Micron PET Backlit Film

Sihl 3560 Backlit Plus 220 PET is a 180 micron, satin finish, stable backlit film for high-contrast lightbox advertising. The backlit film is suitable for indoor and outdoor use. Its particularly high resistance allows use in environments with high humidity and condensation. Its high ink absorption capacity produces impressively vibrant colours and rich black surfaces in both reflected and transmitted light. The film has a thickness of 220µm, providing scratch-resistant surface and crease simply can be inserted crease free. Suitable for printing with eco-solvent, solvent, latex and UV inks.

CANVAS & PHOTO PAPER

Sihl 3609 Picasso Canvas

370gsm Canvas Media

Sihl 3609 Picasso Canvas is a 370gsm satin single side coated artistic canvas for highest quality graphic arts applications. Compatible with eco-solvent, solvent and UV curable inks. Due to the special coating, this high-end canvas is suitable for heavy ink-loads and uniform area-prints also in critical colour-tones. The drying time is excellent and the ink-fixation on the surface is optimised in the coating. The coated surface is water-repellent and the light stability with common eco-solvent and solvent inks is excellent. The fixation of the ink to the surface is very strong and the UV-lamps can be run on reduced performance (low) to avoid high temperatures and a possible cracking of the inks. Main applications are for indoor only.

	Roll Size	Roll Price

Aslan FF 480 FerroPrint

Printable Matte Self Adhesive Ferrous Film with Permanent Adhesive

Aslan FF 480 FerroPrint is a 480 micron matte self adhesive printable polyethylene based ferrous film with a permanent pressure sensitive acrylic adhesive. With Aslan FF 480 FerroPrint any surface becomes suitable for applying magnets. It can also be laminated with other self-adhesive films without losing the characteristic of applying magnets due to high content of iron ferrites. Suitable for use with eco-solvent, solvent and UV inks.

	Roll Size	1-9m	Roll P/M	Roll Price
Aslan FF 480 FerroPrint <i>WEBCODE: ASLFF480</i>	1010mm x 12m	\$73.38	\$66.05	\$825.62

Formula Magnetic Ez Steel

Printable 0.2mm - Ferrous*

Formula Magnetic Ez Steel is a 0.2mm ferrous sheet designed for point of sale applications. The film can be laminated and is able to create photo quality images through solvent inkjet, UV and offset printers, as well as screen printing. ***Must be used with Formula Magnetic Backing.**

	Roll Size	1-9m	10-19m	20-29m	Roll P/M	Roll Price
Formula Magnetic Ez Steel <i>WEBCODE: MAG.2ST</i>	1370mm x 30m	\$29.76	\$26.35	\$24.65	\$22.58	\$677.4

Formula Magnetic Vehicle

Printable 0.9mm - Strong Grip

Formula Magnetic Vehicle is a 0.9mm magnetic sheet designed for vehicle applications. Ideal for printing using solvent inkjet and UV inks, it is able to be laminated to protect and increase the longevity of the sign.

	Roll Size	1-9m	10-14m	Roll P/M	Roll Price
Formula Magnetic Vehicle <i>WEBCODE: MAG9V</i>	610mm x 15m	\$24.18	\$21.41	\$18.35	\$275.25
	1000mm x 15m	\$41.84	\$37.01	\$31.75	\$476.25

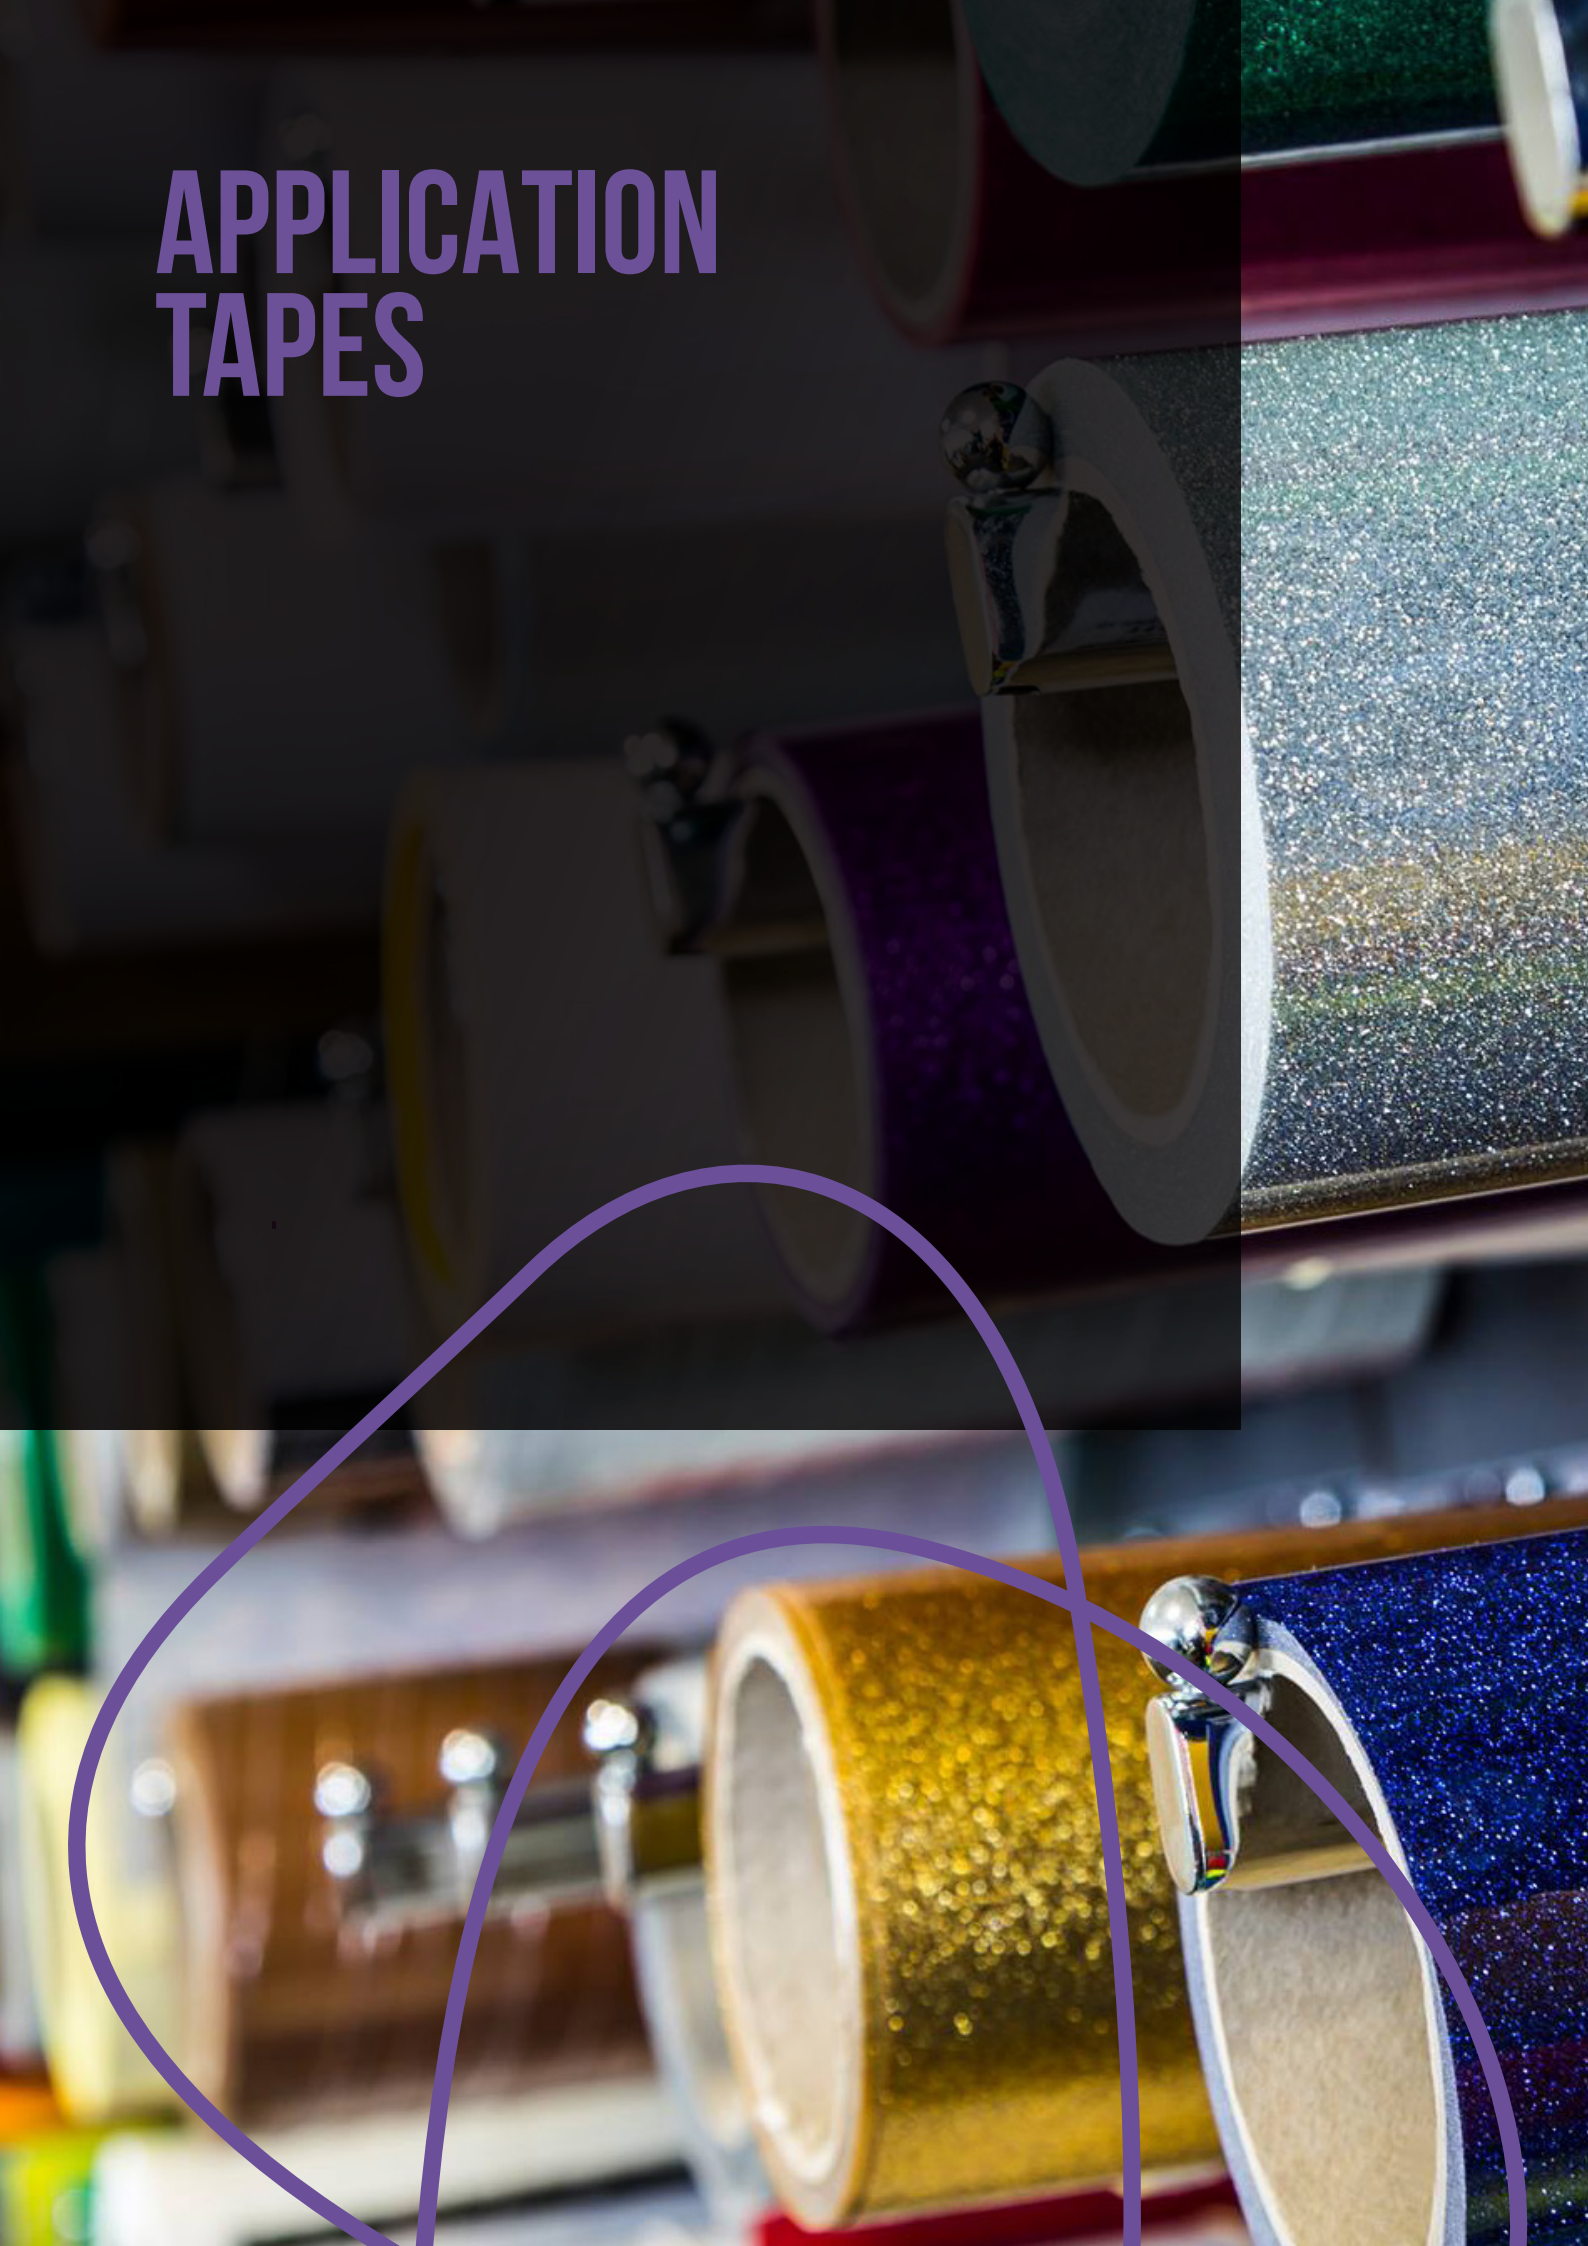

Formula Magnetic Fridge

Printable 0.6mm - High Grip

Formula Magnetic Fridge is a 0.6mm magnetic sheet designed for promotional applications. It has a high gloss surface making it easy to print on using solvent inkjet and UV printers. Fridge Magnetic is not recommended for vehicle application, but is ideal for fridge magnets such as company cards and calendars.

	Roll Size	1-9m	10-14m	Roll P/M	Roll Price
Formula Magnetic Fridge <i>WEBCODE: MAG.6F</i>	610mm x 15m	\$18.19	\$16.09	\$13.8	\$206.94
	1200mm x 15m	-	-	-	\$425.24

HIGH TACK

R-Tape 4076

High Tack Application Tape

R-Tape 4076 is a premium grade 115 micron high tack application tape with a natural rubber adhesive on a saturated paper carrier. Features elongation, abrasion and moisture resistances with greater conformability to irregular surfaces and easy handling. Ideal for the transfer of small to medium hard to transfer letters and graphics, especially etched films.

	Roll Size	Sell Unit	Roll Price
R-Tape 4076 WEBCODE: TAPEARH	-	mm	\$0.32
	610mm x 91m	Roll	\$144.04
	1220mm x 91m	Roll	\$284.66

R-Tape 4076 RLA

High Tack Application Tape

R-Tape 4076 RLA is a premium grade 115 micron high tack application tape with a natural rubber adhesive on a saturated paper carrier. Includes Release Liner Adhesive (RLA) Technology which sticks and lays flat to the exposed release liner around the graphics to protect against wrinkling, tunneling and edge curling. Features elongation, abrasion and moisture resistances with greater conformability to irregular surfaces and easy handling. Ideal for the transfer of small to medium hard to transfer letters and graphics, especially etched films.

	Roll Size	Sell Unit	Roll Price
R-Tape 4076 WEBCODE: TAPEARH4076RLA	610mm x 91m	Roll	\$171.86
	1220mm x 91m	Roll	\$336.08
	1524mm x 91m	Roll	416.95

R-Tape 4775 RLA

Medium to High Tack Application Tape

R-Tape 4775 is a premium grade 152 micron medium to high tack application tape with a natural rubber adhesive on a saturated paper carrier. Includes Release Liner Adhesive (RLA) Technology which sticks and lays flat to the exposed release liner around the graphics to protect against wrinkling, tunneling and edge curling. Features conformability to irregular surfaces, easy handling and is ideal for wet or dry applications.

	Roll Size	Roll Price
R-Tape 4775 RLA WEBCODE: TAPEARSH	1220mm x 91m	\$396.04

TransferRite 6592

High Tack Application Tape

TransferRite 6592 is a high grade 106 micron high tack application tape with a specially formulated latex adhesive on a saturated paper carrier. Features maximum elongation and translucency with a high adhesion level, yet removes cleanly. Can be used in sign shops for general purpose use as pre-space and decal transfer.

	Roll Size	Sell Unit	Roll Price
TransferRite 6592 WEBCODE: TAPEATH	-	mm	\$0.33
	610mm x 100m	Roll	\$166.16
	1220mm x 100m	Roll	\$309.14

MEDIUM TACK

R-Tape 4075 RLA

Medium-High Tack Application Tape

R-Tape 4075 RLA is a premium grade 138 micron medium-high tack application tape with a natural rubber adhesive on saturated paper carrier. Includes Release Liner Adhesive (RLA) Technology which sticks and lays flat to the exposed release liner around the graphics to protect against wrinkling, tunneling and edge curling. Features easy wet or dry applications, easy handling and clean tearing.

	Roll Size	Sell Unit	Roll Price
R-Tape 4075 RLA WEBCODE: TAPEAR_RLA	610mm x 91m	Roll	166.17
	1220mm x 91m	Roll	335.95
	1524mm x 91m	Roll	352.54

R-Tape 4075

Medium-High Tack Application Tape

R-Tape 4075 is a 138 micron medium-high tack application tape with a natural rubber adhesive on saturated paper carrier. Features easy wet or dry applications, easy handling and clean tearing. If adhesive touches R-Tape 4075 is able to be pulled apart easily with no adhesive delamination. Designed to be an all purpose application tape it is ideal for premasking of small and mid-sized die cut or pre-spaced vinyl and printed graphics.

	Roll Size	Sell Unit	Roll Price
R-Tape 4075 WEBCODE: TAPEAR	-	mm	0.32
	610mm x 91m	Roll	\$144.05
	1220mm x 91m	Roll	\$284.59

TransferRite 6585

Medium Tack Application Tape

TransferRite 6585 is a 106 micron medium tack application tape with a specially formulated latex rubber adhesive on a saturated paper carrier. Features maximum elongation and translucency with a medium adhesion level and removes cleanly. Can be used in sign shops for general purpose use as pre-space and decal transfer.

	Roll Size	Sell Unit	Roll Price
TransferRite 6585 WEBCODE: TAPEATM	-	mm	0.33
	610mm x 91m	Roll	\$151.21
	1220mm x 91m	Roll	\$281.32

LOW TACK

TransferRite 6560

Low Tack Application Tape

TransferRite 6560 is a 108 micron low tack application tape with a specially formulated latex rubber adhesive on a standard paper carrier. Features maximum elongation and translucency with a low adhesion level and removes easily. Can be used in sign shops for general purpose use as pre-space and decal transfer.

	Roll Size	Sell Unit	Roll Price
TransferRite 6560 WEBCODE: TAPEATL	-	mm	0.33
	1220mm x 91m	Roll	\$281.32

TransferRite 6760

Low Tack Application Tape

TransferRite 6760 is a low tack paper application tape. This transfer tape is best for large vinyl graphics. It is backed with a standard, heavyweight paper that resists tearing during difficult installations. TransferRite 6760's low tack adhesive allows for smooth removal after installation.

	Roll Size	Sell Unit	Roll Price
TransferRite 6760 WEBCODE: TAPEATM	1220mm x 91m	Roll	369.39

SPECIALTY

R-Tape HotMask 375

High Tack Application Tape

R-Tape HotMask 375 is a 75 micron polyester PET film coated with a high tack, heat-resistant and pressure sensitive modified acrylic adhesive. Protects the surface of the heat transfer material from heat related discolouring.

	Roll Size	Roll Price
R-Tape HotMask 375 WEBCODE: TAPEHM	762mm x 18m	\$150.16

TransferRite 1510

Clear Medium Tack Application Tape

TransferRite 1510 is a 106 micron clear medium tack polypropylene application tape with a specially formulated latex rubber adhesive. Features low stretch, moisture resistance, dimensional stability and resists folding and sagging during installation. This clear film allows accurate registration and positioning which makes it ideal for multi-colour overlays on both cast and calendered films.

SURFACE CLEANING, PREPARATION & APPLICATION FLUIDS

GAMART Isopropyl Alcohol (IPA)

Clean and Dry Surfaces Before Applications

GAMART IPA is a high quality hard surface cleaner with a high evaporation rate making it the best way to clean and dry surfaces prior to the application of self adhesive vinyl.

	Size	Price
GAMART Isopropyl Alcohol (IPA) WEBCODE: GAMIPA	1 Litre	\$20.31
	4 Litres	\$52.67
	20 Litres	\$185.24

ADCOAT Remove-It

Organic Surface Cleaner

ADCOAT Remove-it is an organic, environmentally friendly, biodegradable, non caustic cleaner for the removal of most spray enamels, acrylics, permanent markers and lipstick off surfaces such as metal, stainless steel, ceramic tiles, porcelain, formica, timber, brick, concrete, natural stone and most surfaces treated with graffiti resistant coatings.

	Size	Price
ADCOAT Remove-It WEBCODE: TUFFG1	1 Litre	\$105.55

Avery Dennison Surface Cleaner

Powerful Cleaning and Degreasing Spray for Use Before Application

Avery Dennison Surface Cleaner is a very powerful product for cleaning and degreasing. Remove all kinds of residue in one action - dirt, wax, silicone and more. Ideal for surfaces that need to be prepared prior to application of self adhesive materials. Combines both the characteristics of a detergent on the basis of alcohol and of a detergent on solvent basis in one single product.

	Size	Price
Avery Dennison Surface Cleaner WEBCODE: AVSC	1 Litre	\$21.61

Avery Dennison Adhesive Remover

Removes Adhesive Residue Left After Vinyl Removal

Avery Dennison Adhesive Remover is a specially formulated professional cleaner designed for the removal of adhesive residue following the removal of graphics. Easily removes solvent, acrylic and waterbased adhesives using a small amount of spray on a cloth.

	Size	Price
Avery Dennison Adhesive Remover WEBCODE: AVAR	500ml	\$38.48

Viponds Strippable Coating - 1LT

Stripping Vinyl Removal

Viponds Strippable Coating is a clear water thinned paint that when applied to a non-porous surface (eg glass, metal, plastic, vinyl, polycarbonate, acrylic etc) and allowed to dry, it can be peeled off without affecting the surface.

	Size	Price

Blaster Decal & Sticker Remover WEBCODE: BLASTDSR	300grams	22.06

Avery Dennison Supreme Wrap™ Care

Keep Avery Dennison Vehicle Graphic Films in Peak Condition

The premium finish made possible by Avery Dennison vehicle graphic films deserves the very best in after care - if it looks great, it should stay great. The Avery Dennison Supreme Wrap™ Care range includes a Cleaner, Power Cleaner and Sealant. These are professional grade products that are simple for anyone to use. They help matte, satin and gloss vehicle wraps cope with all the challenges of the road after leaving the workshop.

- Protects & cleans vehicle graphics
- Suitable for all car wrap finishes*
- Tested with all Avery Dennison vehicle films
- Easy to use water based products
- An alternative to traditional car wash
- No additional water required

* For matte finishes, it is advised to test the Sealant on a small area first (buff thoroughly into the film to avoid streaking)

Cleaner

General cleaning product for regular use – eliminates dust, light dirt, fingerprints and other marks.

Power Cleaner

Extra power to deal with difficult localised stains such as bird droppings, road grime, tree sap and much more.

Sealant

Provides a protective layer on the wrap, making it easier to clean off everyday challenges like dirt, bird droppings and tree sap.

Optimum results when used in combination, but can also be used separately.

YelloTools PowerCleaner

Dust Remover

Yellotools PowerCleaner, inspired by cleanroom technology used in medical and aerospace fields, is the perfect solution for environments where hygiene and cleanliness are paramount, such as in digital printing and signmaking. The system operates seamlessly: roll the PowerCleaner evenly over the contaminated surface, allowing its adhesive coating to capture and retain dust. When the roller is soiled, peel off the protective paper from the PowerCleaner Pad and roll it over the sticky side of the cleaning sheet from top to bottom. This process efficiently picks up particles, reloading the cleaning roller for continued effective use. The PowerCleaner ensures a meticulous cleaning process, aligning with the high standards required in these industries

	Price
Yellotools Power Cleaner WEBCODE: YTPOWERCLEANER	\$521.06

YelloTools EasyPump (1 Liter)

Pressure Pump Sprayer

For optimal dispersion of cleaning agents and application fluids,. The special seals of this pump spray bottle can also resist most alcohol-based cleaners.

	Price
Yellotools EasyPump (1 Liter) WEBCODE: YT12EP01	\$62.43

YelloTools APE FoamPotion (1ltr)

Application Fluid

Introducing the APE FoamPotion, a pH-neutral foam specially formulated for applying paint protection films. This innovative alternative to conventional application fluids offers unique advantages. Notably, one liter of APE FoamPotion yields approximately 20 liters of application foam. This extended usage makes it more cost-effective compared to regular application liquids. The FoamPotion creates a protective barrier between the film and the substrate, enhancing application precision. Its visibility upon application ensures thorough coverage, while its alcohol-free formula preserves the film's adhesive integrity. The FoamPotion's easy washability simplifies cleanup, contributing to a smoother application process.

	Price
YelloTools APE FoamPotion (1ltr) WEBCODE: YT20AFP1L	\$53.61

SQUEEGEES & APPLICATORS

ImageOne Impact WetEdge™ Squeegee

Microfibre Teflon Squeegee

The WetEdge™ Squeegee is a Teflon squeegee with a unique microfibre edge technology bonded to it which means wrapping your vehicles faster and more efficiently with the only squeegee applicator made to be used wet or dry. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage.

	Sell Unit	Price
ImageOne Impact WetEdge™ Squeegee WEBCODE: WETEDGE	Each	\$32.68

Avery Dennison Squeegee Pro

Blue Rigid PVC Felt Squeegee

The Avery Dennison Squeegee Pro is a blue rigid PVC squeegee featuring a double sided felt edge for scratch free application. The Pro is the perfect size for standard applications providing enough flexibility and pressure for most application jobs.

	Sell Unit	Price

Yellotools AllStar Wings Micro 5pk		\$13.91

YelloTools PPF Sandwich

Multi-Layer Squeegee for Paint Protection Films

The Yellotools PPF Sandwich provides robust support for applying ideal pressure to the squeegee edge. It ensures fatigue-free work, particularly on large surfaces. With its pointed edge geometry, it facilitates the optimal distribution of adhesive liquid to film edges, enabling precise squeegeeing even in tight corners during paint protection film application.

	Price
YelloTools PPF Sandwich 4 WEBCODE: YT20PPFS04	\$46.56
YelloTools PPF Sandwich 5 WEBCODE: YT20PPFS05	\$54.4

Yellotools TonnyMag Basic Squeegees

Magnetic Squeegee

The TonnyMag Basic features two built-in magnets for easy attachment to magnetic surfaces, ensuring the squeegee is always within reach during car wrap vinyl application. Its strong magnetic force also allows it to be used for positioning and aligning digital prints and plotted graphics. For non-magnetic surfaces, the self-adhesive GeckoPatch pads provide an ideal solution.

	Shore Strength	Price
Yellotools TonnyMag Basic Squeegees WEBCODE: YTTONNYMAGSQUEEGEE

Yellotools Yelloflex Squeegee

Flat Flexible Squeegee

The YelloFlex Squeegee is an extremely flat, flexible vinyl squeegee with a rubber lip. It's perfect for car-wraps and window application. It was designed originally for window films, because it doesn't scratch the material, but it's especially good for wiping away water when doing wet applications.

	Price
Yellotools Yelloflex Squeegee WEBCODE: YTYELLOFLEX	5.83

Yellotools YelloFelt Grip 4"

Felt Squeegee

The YelloFelt Grip includes 25 mm narrow YelloFelt Lip squeegee strips that can be easily inserted and fixed with screws. These strips can be turned around and reused, achieving an impressive utilization rate of nearly 80%! Plus, this design eliminates the need to reach into soaked felt during wet applications, improving comfort. The YelloFelt Grip includes a squeegee system with a center handle and squeegee lips, extended service life by flipping the squeegee strips, and suitability for rough, uneven, or riveted surfaces. YelloFelt Lip are the replacement Felt Strips.

	Price
Yellotools YelloFelt Grip 4" WEBCODE: YTYELLOFELT	\$38.74
Yellotools YelloFelt Lip 4" WEBCODE: YTYELLOFELT	\$7.43

Yellotools Mini Fun Squeegees

Mini Squeegees

The popular trapezoidal-shaped squeegee now comes in a mini version, perfect for film wrapping enthusiasts and signmakers. Available in various colors, the ProWrap Mini Fun is a fun and practical tool. Consider gifting it in your company colors as a memorable promotional item.

	Price
Yellotools Mini Fun Squeegee WEBCODE: YT16PWMFO01	\$6.61

Yellotools WrapSlipCut Magic Master

Squeegee With Blade guide

The WrapSlipCut MagicMaster is an exceptionally smooth Teflon squeegee with parallel slots, ensuring precise guidance for the knife during cutting. This allows for quick and clean film cuts on vehicle edges and windows. It's not just for car wrapping films; it's also perfect for cutting window tinting, plotter, and furniture films with accuracy. Additionally, it excels in large-area applications with window films, mirror films, or decorative films

	Price
Yellotools WrapSlipCut Magic Master WEBCODE: YT16WSCMM01	\$42.65

Yellotools ProWrap Betty Squeegees

Car Wrap Squeegee

The ProWrap Betty ensures optimal application of car wrapping films on every part of the car body, from doors and hoods to fenders and add-on parts. Its unique squeegee offers three different degrees of hardness, providing optimal adhesion to vehicle contours:

- Betty S32: 32 Shore - Soft
- Betty S40: 40 Shore - Medium
- Betty S65: 65 Shore - Hard

	Price
Yellotools ProWrap Betty Squeegee WEBCODE: YTPROWRAPSQUEEGEE	Soft - \$ 11.31 Medium - \$11.31 Hard - \$11.76
Yellotools YelloWings Betty Micro Fine 5pk WEBCODE: YTYELLOWINGS	\$21.48 (Pack of 5)

YelloTools APE Duo

Multi-Layer Squeegee for Window Tinting and Paint Protection Films

The two-layer design offers both stability and flexibility. DuoGreen represents the harder version, while DuoRed is softer, catering to professional squeegee needs. With edge grinds at 30, 45, and 90 degrees, users can adjust pressure during squeegeeing. This flexibility ensures optimal application of window tinting films, allowing liquid to be efficiently worked out of the film. Adjusting pressure is as simple as turning the squeegee.

	Price
YelloTools APE 75/95 Shore D (DuoGreen) Hard WEBCODE: YT20ADG75	\$34.82
YelloTools APE 65/95 Shore D (DuoRed) Soft WEBCODE: YT20ADR65	\$33.23

YelloTools WrapDragon Green

Plastic Squeegee

The WrapDragon is an innovative wrapping tool designed to tackle all your wrapping challenges. With notches on its short flanks, it excels at working in recesses and tight angles, ensuring precise film application. Plus, its four outer flanks provide unique cushioning for corner pressure, unlike conventional squeegees.

Featuring three R4 radii and a 90° edge at the corners, the WrapDragon makes it easier to apply vinyls under mouldings and edges. It even allows for precise film cutting with its edge. Thanks to a new manufacturing process, the tool is free from residual plastic burrs, ensuring smooth operation.

	Price
YelloTools WrapDragon Green WEBCODE: YT22WDG02	\$15.12

YelloTools WrapDragon SlipCut

Plastic Squeegee With Blade Guides

The WrapDragon's 90° edge allows for precise alignment of cuts in window frame corners, enabling the SlipCut method. This cutting aid ensures a consistent distance from the inner window edge as it moves parallel to the blade. Its Teflon material minimizes skidding on all surfaces, ensuring smooth cutting

	Price
YelloTools WrapDragon SlipCut WEBCODE: YT23WDSC01	\$36.37

Yellotools FeltBloc Squeegees

Flet Squeegees Made From Combed Natural Felt

Yellotools FeltBlocs prove invaluable for applying adhesive films to uneven or slightly textured surfaces like corrugated or riveted panels. These practical tools are essential for facade and wall installations or applying privacy films. Their gentle sweeping motion ensures surfaces remain unscratched during application, making them a must-have accessory.

	Price
Yellotools FeltBloc 5" WEBCODE: YTFELTBLOC	\$17.92
Yellotools FeltBloc 6" WEBCODE: YTFELTBLOC	\$15.75
YelloTools FeltBloc 050S WEBCODE: YTFELTBLOC	\$12.51

YelloTools WetMaxxHandle Plain

Squeegee Holder for Flat Glass Applications

The WetMaxx squeegee system, revolutionizing wet application for window films, tinting films, and decorative films. Whether it's UV protection films on office windows, decorative films in restrooms, or window tinting films on car windows, Yellotools WetMaxx is the go-to tool for professional applications.

Featuring two robust aluminum retaining plates that securely hold the squeegee blade at the center, along with an ergonomic handle equipped with a non-slip, skin-friendly material. The tilt angle of the squeegee blade is easily adjustable, allowing for precise customization. Simply loosen the holding screws, adjust the angle, and then retighten the screws for optimal performance.

	Price
YelloTools WetMaxxHandle Plain WEBCODE: YT21WMHP01	\$261.31

Yellotools TwinBase Handle Flexi

Adjustable Squeegee Handle For Vinyl Applications Flexi

The TwinBase Handle squeegee handle allows more pressure to be applied to the squeegee surface and offers improved ergonomics for large-area applications in car wrapping and sign making. The TwinBase Handle Flexi has a max length of 90cm. Compatible with YelloTwin Lip Squeegee.

	Price
Yellotools TwinBase Handle Flexi WEBCODE: YT21TBHF01	\$256.83

Yellotools YelloMini Hang-Loose Squeegee

Plastic Squeegee

The YelloTools YelloMini Hang-Loose is perfect for fine tuning details and hard to reach places of cars, trucks and bikes. Available with a 90° angle.

	Price
Yellotools Timbermaxx Squeegee 50cm WEBCODE: YTYELLOMINI	8.41

WrapStick Beavertail Orange

Car Wrapping Squeegee Pen

Yellotools YelloTwin Lip

Interchangeable Squeegee Lip

The YelloTwin squeegee system by Yellotools is modular and versatile, with an ergonomic handle housing two squeegee blades. You can customize the blades from very soft to very hard. Plus, it comes with two magnets for easy storage on metal surfaces. Orange Lip is a rather hard squeegee lip.

	Price
Yellotools YelloTwin Lip Gold WEBCODE: YTYELLOTWIN	\$4.46
Yellotools YelloTwin Sample Box WEBCODE: YTYELLOTWIN	\$74.15

Yellotools WrapStick Hook

Squeegee Pen with Hook Shape

The WrapStick Hook is equipped with a rounded hook shape on one side, perfect for shaping or tucking the film on door edges during car wrapping. The second, L-shaped tool tip is then employed to firmly press the preformed film into narrow gaps, trim strips, and other inaccessible areas.

	Price
Yellotools WrapStick Hook WEBCODE: YTWAPSTICK	\$41.05

Yellotools WrapStick Betty

Mini Squeegee With Round, Flat Tool End & Narrow Tip

This unique car wrapping tool features two different ends for versatile use. One end has a circular shape, making it easier to apply vinyl wraps to deep and hard-to-reach areas. The special radius ensures that you always apply it at the correct 30-degree angle, ensuring wrinkle-free application on concave surfaces. The other end has a thin tapered blunt tip, ideal for working vinyl films into beads and narrow recesses.

The WrapStick Betty is available in two hardness levels and comes with a matching Wing squeegee pad for the circular side:

- Green: Soft (approx. 40 Shore D),
- Gold: Medium (approx. 72 Shore D)

	Price
Yellotools WrapStick Betty - Green WEBCODE: YTWAPSTICK	\$41.05
Yellotools WrapStick Betty - Gold WEBCODE: YTWAPSTICK	\$41.05

Yellotools WrapStick Carson

Mini Squeegee with Flexible Tool Stip

This special car wrapping tool features two distinct tips for versatile usage. One end has a flat spade shape, facilitating the application and cutting of self-adhesive film in deep and difficult-to-reach areas. The other end of the WrapStick Carson boasts a narrow tapered tip, perfect for working car films into beads and narrow recesses.

Carson utilizes the pointed end of the tool to lift rubber seals during a car wrap, then uses the opposite end to push the film under the seal.

The WrapStick Carson is available in three hardness levels and comes with a matching Wing. squeegee pad:

- Gold = medium (approx. 72 Shore D)
- Teflon = hard (approx. 84 Shore D)
- Peekaboo = very hard (approx. 89 Shore D) Peekaboo = very hard (approx. 89 Shore D) With the extra hard Peekaboo version, the film can even be cut beneath the seal without damaging the paint.

	Price
Yellotools WrapStick Carson Gold WEBCODE: YTWAPSTICK	\$42.32
Yellotools WrapStick Carson Peekaboo WEBCODE: YTWAPSTICK	\$42.32
Yellotools WrapStick Carson Teflon WEBCODE: YTWAPSTICK	\$41.05

Yellotools WrapStick HangLoose

Squeegee Pen with Angled Tips

Yellotools WrapStick HangLoose is a versatile 2-in-1 tool with angled ends at 45 and 90°. These angles enable you to firmly and securely apply car wrapping films in areas like headlight frames, hood gaps, or fender gaps. Additionally, this WrapStick features a strong holding magnet, ensuring it can be securely parked and easily accessible on the vehicle.

	Price
Yellotools WrapStick HangLoose WEBCODE: YTWAPSTICK	\$41.05

Yellotools WrapStick Flex

Squeegee Stick For Professional Vinyl Wrapping Of Trims And Seals

The WrapStick Flex is designed with a lengthy and flexible tip, ideal for precise wrapping tasks where the film needs to be applied under trims and rubber gaskets. Its shorter end is perfect for smaller, round areas that are difficult to reach with human fingers. This flexible tip is particularly useful for wrapping parking distance sensors with precision.

The Yellotools WrapStick Flex is available in three levels of hardness:

- Gold = medium (approx. 72 Shore D)
- Orange = medium hard (approx. 82 Shore D)
- Teflon = hard (approx. 84 Shore D)

	Price
Yellotools WrapStick Flex Gold WEBCODE: YTWAPSTICK	\$41.05
Yellotools WrapStick Flex Orange WEBCODE: YTWAPSTICK	\$41.05
Yellotools WrapStick Flex Teflon WEBCODE: YTWAPSTICK	\$41.05

Yellotools WrapStick Sloan

Squeegee Stick With a Flat Spade Shape and Blunt Tip

The WrapStick Sloan offers versatility with two distinct tool tips: one side features a blunt tapered tip for lifting rubber seals, while the other side boasts a flat spade shape for effortless application and cutting of self-adhesive films in deep and difficult-to-reach areas.

WrapStick Sloan is available in three hardness levels and comes with a matching Wing. squeegee pad:

- Gold = medium (approx. 72 Shore D)
- Teflon = hard (approx. 84 Shore D)
- Peekaboo = very hard (approx. 89 Shore D)

Yellotools WrapStick Tupp

Squeegee Pen with Narrow Space Shape & Semi-Curved Nose

With its dual tool ends, WrapStick Tupp provides versatile application options for car wrapping. The semi-curved “crow’s foot” aids in applying films to add-on parts like headlight housings, turn signals, or grille elements, while the flat end allows for precise application of the film with high contact pressure.

WrapStick Tupp is available in two hardness grades:

- Gold = medium (approx. 72 Shore D)
- Teflon = hard (approx. 84 Shore D)

	Price
Yellotools WrapStick Tupp - Gold WEBCODE: YTWRAPSTICK	\$41.05
Yellotools WrapStick Tupp - Teflon WEBCODE: YTWRAPSTICK	\$42.32

Yellotools WrapStick Set

Car Wrapping Squeegee Pens

A car wrapping tool needs to be both functional and practical. Our WrapSticks are designed to simplify and expedite wrapping tasks. Each WrapStick is tailored to address specific challenges encountered during vehicle wrapping, such as accessing body gaps, window seals, and intricate areas like headlight housings. All WrapSticks feature an integrated powerful holding magnet, allowing for safe and convenient storage on the vehicle, GeckoPatch, or YelloGear Patch.

The WrapStick Set includes:

- WrapStick Betty Gold/Green
- WrapStick Beavertail Gold/Orange/Teflon
- WrapStick Carson Gold/Teflon/Peekaboo
- WrapStick HangLoose
- WrapStick Flex Gold/Orange/Teflon
- WrapStick Hook
- WrapStick Sloan Gold/Teflon/Peekaboo
- WrapStick Tupp Gold/Teflon
- WrapStick Wing Betty/Carson/Sloan

Justin Pate Banana Buffers

Felt Application Buffers

Banana Buffers are replaceable wet application buffers that make wrapping PPF to chrome a breeze. Made to fit standard 4" squeegees, measures 28.5mm x 101.5mm long. The buffer can be easily replaced with a clean one at anytime so you can turn your squeegee into a slippery wet application squeegee simply by peeling the Banana Buffer.

	Price
Banana Buffers WEBCODE: BANANABUFFERS	\$2.87

Justin Pate Monkey Strips

Felt Replacement Strips

Cover your favourite squeegee with Monkey Strips and use the squeegee you want to use, not one that's too soft or too stiff just because it's pre-covered with felt or microfibre. Pre-cut 25mm x 101.5mm adhesive backed specialised material designed to improve speed and protect the vinyl. Monkey Strips remove cleanly leaving very little adhesive. Not recommended for wet applications.

	Price
Monkey Strips WEBCODE: MONKEYSTRIPS	\$2.39 (each)

Justin Pate Monkey Tails

Felt Replacement Roll

Monkey Tails are made out of the same thin, soft, durable felt as Monkey Strips but in a convenient 75mm x 100mm roll that allows installers to make a custom buffer for any sized squeegee. Semi-transparent box allows you to see when to order another box of Monkey Tails so you never run out. Not recommended for wet installations.

	Price
Monkey Tails WEBCODE: MONKEYTAILS	\$85.27

YelloTools BodyGuard Knife Series

Knife with Teflon Gliding Base

The YelloTools BodyGuard Knife Liner Cutting Tool is designed to cut through the paper backing of pressure sensitive vinyl. Made with a solid steel shaft, and a teflon contact strip to protect your graphic, this knife gives you a clean and easy cut through the backing liner

YelloTools BodyGuard Knife Duo HD

The deluxe version of our BodyGuard Knife, the Duo HD features a larger “bike grip-like” handle, as well as an adjustable blade bracket, which allows you to choose the cutting direction: “push to cut” or “pull to cut”

YelloTools BodyGuard Knife Teflon Twin

Two glide “feet” to one handle. Now, able to make two center cuts in just one motion. This makes applying digital prints on signs, windows and all upright surfaces a piece of cake.

YelloTools BodyGuard Knife Teflon

A special teflon-coating improves the gliding ability and gives you a clean, easy cut through your vinyl or just the backing paper

YelloTools BodyGuard Knife Pro Teflon

Our all-new ProTeflon version is fitted with a high-end Teflon coating. Improved gliding properties throughout the cut of the open liner paper. Back-slitting can now be done with way less friction and with an easier, faster cut. No more replacing strips of Teflon. This is a must-have for all those who use our cutter every day.

Yellotools YelloWheel Pro

Adjustable Rotary Cutter

Yellotools YelloWheel Pro offers adjustable roll characteristics, available in three stages (soft, medium, hard). You can easily change the spring resistance using a selector lever with a snap-in function located at the back of the cutter. Additionally, the blade guard of the YelloWheel Pro automatically retracts when pressure is applied to the blade, and a protective cap covers the blade when it's not in use.

	Price
Yellotools YelloWheel Pro WEBCODE: YTYELLOWHEEL	\$64.21

Yellotools YelloCut Series

LightWeight Cutter Knife with Auto-Lock

The YelloCut Master is the flagship of our knife range: This signmaking cutter features a holder for snap-off blades with 30 and 59 blade angles as well as an auto-lock function that can withstand up to 8 kg of contact pressure. The transparent plastic guide stabilizes the blade with every cut, while the triangular shape of the blade always fits perfectly in the hand, for both left- and right-handed users.

The YelloCut Master Pro has a balanced weight ratio, making it perfect for precision cutting of applied films on delicate surfaces and car bodies. Its sturdy die-cast knife is torsion-resistant, featuring a riveted shaft and a convenient auto-lock function. Capable of enduring up to 10 kg of pressure, it pairs perfectly with our 30° replacement blades.

The YelloCut Slim is a cutter knife made of stainless steel that offers an auto-lock function and can withstand up to 8 kg of contact pressure. It impresses with its light weight and perfect balance when cutting. Thanks to the practical pocket clip, this slim cutter can also be parked quickly and safely in between times. The YelloCut Slim is suitable for 30 and 59 blades.

Matching replacement blades: SpareBlades 9 mm 59° and TitanBlades 9 mm 59°

Yellotools Sign Level ALS

Alignment Aid for Sign Mounting

SignLevel ALS simplifies and speeds up sign installation by providing easy alignment. It features a special mounting bracket that attaches parallel to the sign edge using a suction cup. The bracket includes a "bubble level plate" with recessed spirit levels for accurate leveling. Clearly legible spirit levels indicate which side of the sign needs adjustment, leaving one hand free for marking, drilling, or screwing

	Price
Yellotools Sign Level ALS WEBCODE: YT13SAL001	\$312.63

Yellotools SignTrim Big

Deburring Tool For Left and Right Handers

SignTrim Big simplifies and expedites the process of deburring sign edges effortlessly. The tool's length and diameter are precisely calibrated to lift small, uniform chips from soft materials like aluminum composite. The rotating and interchangeable blades pivot through wrist movement, ensuring the blade remains securely engaged with the sign edge throughout the operation.

	Price
Yellotools SignTrim Big WEBCODE: YTSIGNTRIM	\$39.09
Yellotools SignTrim Big Blades - Right Hand	\$4.66
Yellotools SignTrim Big Blades - Left Hand	\$4.66

Yellotools RubberLift

Lifting Tool for Rubber Seals

RubberLift is a specialised tool used in car wrapping to elevate window and door seals, facilitating the application of film underneath. Its sophisticated design and material-friendly plastic compound prevent any potential damage to the seals. Moreover, the RubberLift proves versatile, also serving the purpose of applying car wrapping films to body gaps and spaces

	Price
Yellotools RubberLift WEBCODE: YT11RL001	\$13.66

Yellotools Gecko Patch

Self-Adhesive Magnet Pads

The YelloTools GeckoPatch Suction Cup Magnet Holder is perfect for use on non-metal surfaces such as vehicle panels, windows, aluminium, plastic, plexi-glass, to make the surface magnetic.

Available Sizes:

- Small (5cm x 5cm) • Medium (10cm x 5cm) • Large (10cm x 10cm) • Flexi (4 plates of 5cm x 5cm)

	Price
Yellotools Gecko Patch Small WEBCODE: YTGECKOPATCH	\$27
Yellotools Gecko Patch Medium WEBCODE: YTGECKOPATCH	\$42.65
Yellotools Gecko Patch Large WEBCODE: YTGECKOPATCH	\$54.39
Yellotools Gecko Patch Flexi WEBCODE: YTGECKOPATCH	\$66.13

YelloTools GeckoPatch Power “S”

Strong Magnetic Pads for Non-Magnetic Surfaces

Introducing the GeckoPatch Power: With a 1-millimeter thick sheet metal, it boasts triple the magnet’s pulling force, capable of securely holding heavier tools like the WrapGun II heat gun. Removing these powerful patches from the substrate is best done with both hands or a YelloBlade. The increased adhesive force is due to the stronger sheet metal, making the GeckoPatch Power less flexible compared to regular GeckoPatches. Hence, we recommend testing both versions and alternating between Regular and Power based on the application needs.

	Price
YelloTools GeckoPatch Power “S” WEBCODE: YT21GPPS	\$26.99

Yellotools LacyTip - Teflon

Lifting Tool for Detail Wrapping

YelloTools LacyTip allows rubber lips to be lifted when wrapping vehicles in order to easily and cleanly work in car films in hard-to-reach places such as in the headlight area, under rubber seals or in partial gaps.

Yellotools EasyDot HD Ink

Deep Hole Marker For Drilling Templates

For signmakers facing drillhole marking challenges, our EasyDot HD is the ingenious solution. Its exceptionally long and thin tip, along with special ink, allows precise marking on various surfaces. The pocket-friendly design, featuring a sturdy protective cap with a holding clip, ensures durability even on rugged sites. The adjustable telescopic tip guarantees a solid mark, making it ideal for signs, light boxes, or substructures.

	Price
Yellotools EasyDot HD Ink WEBCODE: YTEASYDOTHD	\$28.25

Yellotools Print Joggle Basic Set

Alignment Aid for Sign Mounting

Mounting vinyl-covered signs without tools can feel like a guessing game. When the film covers the sign's edge, it's hard to align it perfectly. That's why our customer, Arndt Palzer, created the clever PrintJoggle.

Press the inner corners of the PrintJoggle against the sign corner, then guide the print's corners under the Joggle's Plexiglass disc. The printed scale shows the exact position of the sign's outer edge. Align the print with this scale, and you can mount the sign perfectly.

	Price
Yellotools Heavy Holder WEBCODE: YT13PJSET01	\$128.73

Yellotools WallRoller Hot

Pressure Roller for Self Adhesive Films

Yellotools WallRoller Hot is ideal for applying wall and floor graphics. It features a quick-release fastener for securing the WrapGun I and II, making it easy to plug in the heat gun swiftly. Using this pressure roller ensures a more ergonomic and fatigue-free installation of thermoplastic films.

	Price

Yellotools Yello Thin Ruber Wheel WEBCODE: YTYELLOWHEEL	\$193.62

Yellotools P-Glass Refiner

Blowtorch For Signmakers

The P-Glass Refiner is a compact handheld gas blowtorch with an adjustable spacer for material thickness (up to 8 mm). By controlling the fusion level, you can pass the burner over the sign edge briefly or for longer periods. Its convenient size makes it perfect for working on individual signs or as a handy repair tool.

	Price
Yellotools P-Glass Refiner WEBCODE: YTP-GLASS	\$213.94

Yellotools Wrap-U-Ezee

Application Aid For Protruding Vehicle

YelloTools Wrap-U-Ezee helps applying and stretching vinyl without a second pair of hands. The special feature here is that the vinyl can be evenly pre-stretched and the danger of overstretching in certain areas is significantly reduced. An ingeniously simple car wrapping foil aid.

	Price
Yellotools Wrap-U-Ezee WEBCODE: YT21WUEFS01	\$77.86

YelloTools Wrap-U-ezee Flat Small

Application Aid For Protruding Vehicle Parts

The Wrap-U-ezee makes wrapping large vehicle add-on parts like exterior mirrors effortless. For smaller parts like door handles and GPS antennas, the Wrap-U-ezee Flat offers a practical solution. This narrower and more flexible tool is designed to apply vinyl directly on the vehicle without removing the parts. Simply place the pre-tensioned film on the add-on part, squeegee it on, and cut to size. It works just as effectively whether applied on the vehicle or on a workbench.

	Price
YelloTools Wrap-U-ezee Flat S WEBCODE: YT21WUEFS01	\$70.23

LIQUID ADHESIVES

Soudal Soudaseal Supertack Adhesive

Industrial Quality MSPolymer Supertack Adhesive

Soudal Soudaseal Supertack is a high quality structural adhesive that combines the three most important characteristics when used for bonding heavy items at height 1. Extremely high tensile strength of 3.5N/mm², 2. Extremely high shear strength of 3.5N/mm², 3. Very high initial grab of 220kg/m². It is based on MS Polymer®, Chemically neutral and fully elastic. For bonding objects on horizontal or vertical applications where no mechanical fastenings or double-side tape is used.

Yellotools BoostBox Bucket

Vinyl Drying Box

The BoostBox Bucket is a box that holds up to 4 rolls and enables you to speed dry and outgas your digital images in a clean, dust free environment. The BoostBox Bucket provides a constant flow of filtered air inside the box, speeding up drying times for fast turnaround.

	Price
Yellotools BoostBox Bucket WEBCODE: YTBOOSTBOX	783.72

Yellotools Twister WallMount

Vinyl Roll Rack for Wall Installation

With the Twister Wallmount, roll media can be securely and efficiently stored on the wall, maximizing storage capacity for roll media, particularly in smaller signmaking workshops. The Twister Wallmount accommodates 9 rolls of film with a 3" (7.62 cm) core diameter.

	Price
Yellotools Twister WallMount WEBCODE: YTTWISTER	\$201.6

Yellotools VertiGo Mainframe - 1000mm

Customisable Vinyl Roll Storage System

The VertiGo Mainframe is the basic part of the VertiGo system series. It's easy to use – just measure the length of the aluminum system rails for your shelf height and decide how many holding arms you need. You can adjust the distances between film rolls to fit different sizes. That's it! Now you can build your own film storage rack with various holding arms.

	Price
Yellotools VertiGo Mainframe WEBCODE: YT11VSSM01	\$140.91

YelloTools Twister Slot Stripe

Floor Stand For 7 Vinyl Films

Position the Twister Slot Stripe adjacent to, behind, or between your printers and plotters for easy access to film rolls, minimizing unnecessary movement. Crafted from coated multiplex wood, the Twister Slot Stripe features wooden crosses tailored to accommodate roll cores with a 3" diameter.

	Price
YelloTools Twister Slot Stripe WEBCODE: YT23TWSS01	\$242.31

YelloTools CozyRack

Roll Holder

The CozyRack Tube can be configured in three widths and its heights can be extended as required. This inexpensive film storage system is optimally suited for achieving your valuable media. With maximum load of 200kg, the stable glued wood construction can withstand just about any requirement. The two side panels hold up to seven of our A-tubes, which can be used to adjust the shelf width. Available in 165cm. A-Tubes available to purchase separately, or as a bundle.

	Price
Yellotools CozyRack WEBCODE: YT08CR002	\$214.83
Yellotools CozyRack A-Tube	\$46.67
YelloTools SozyRack A-Tube Stoppers (2Pack)	\$8.03 (2 Pack)

YelloTools Treemaxx

Moveable or Static Shelving

Heavy film media rolls are not easy to move - especially when you are alone. The TreeMaxx Tube holds a maximum of 15 rolls up to a width of 165 cm. The extremely sturdy design, the high-quality birch multiplex wood, the heavy-duty rollers - all of this makes this moveable film roll shelf a versatile storing system for your signmaking workshop.

	Price
Yellotools Treemaxx Easy Reach Pro 140cm WEBCODE: YTAPPFIX	\$3101.7
Yellotools Treemaxx Easy Reach Pro 165cm WEBCODE: YTAPPFIX	\$3782.21
Yellotools Treemaxx A-Tube 165 for Treemaxx/CozyRack WEBCODE: YTAPPFIX	\$908.88
Yellotools A-Tube Stoppers 2pk WEBCODE: YTAPPFIX	\$8.03 (2 Pack)

YelloTools Appfix

Application Tape Dispensers

YelloTools AppFix is an unrolling device that enables an efficient workflow when making signs. The film roll is simply placed on the Appfix, gradually unrolled and squeegeed onto the prepared motif or the plotted lettering. Then the film only has to be cut off to continue with the application.

	Price
Yellotools Appfix 70 WEBCODE: YTAPPFIX	\$195.25
Yellotools Appfix 140 WEBCODE: YTAPPFIX	\$336.11
Yellotools Appfix Roll 'n' Cut WEBCODE: YTAPPFIX	\$1443.81

Yellotools A-Tube Stoppers

Holder for Aluminium Tubes

YelloTools A-Tube stoppers are the perfect helpers to secure your A-Tubes. These rubber stoppers are simply placed on the ends of the film roll holders and prevent the aluminum bars from shifting sideways. Perfect for CosyRack Tube, TreeMaxx or the VertiGo system.

	Price
Yellotools A-Tube Stoppers WEBCODE: YT12ATS001	\$8.03 (2 Pack)

Joyna Strip

Hook and Loop Joining Tape - 25mm wide

The Joyna Hook and Loop Strip range of tape is available plain or with a pressure-sensitive adhesive, that makes it ideal for displays on carpet walling. You simply stick the hook to the posters corners and stick the hook to the carpet or loop. Available in Black and White

PANTONE PLUS Colour Bridge - Coated and Uncoated Set

Complete PANTONE Matching Set

PANTONE PLUS Colour Bridge Set provides essential colour selection guides for designers, pre-press and printers. PANTONE Colours are for process printing (CMYK) or Web design (RGB). Save money by purchasing this set of two Plus Series Colour Bridge Guides, on coated and uncoated stock. The Colour Bridge provides process colour simulations of all solid PANTONE Colours in a convenient side-by-side comparison format. An invaluable multi-use colour reference tool, the Colour Bridge can be used to select and specify solid PANTONE Colours.

	Price
PANTONE Colour Bridge Set WEBCODE: PANTCBS	\$631.39

PANTONE PLUS Colour Bridge - Coated Book Only

Coated Matching Book

- 1,341 Solid PANTONE colours, including 14 base colours
- Chromatically arranged fan format
- Process matches with CMYK, Screen Tint Percentages
- Each colour has distinct PANTONE number or name
- Coated paper

	Price
PANTONE PLUS Colour Bridge - Coated Book Only WEBCODE: PANTCBC	\$373.89

PANTONE PLUS Formula Guides - Coated and Uncoated Set

Complete PANTONE Mixing Set

The PANTONE PLUS Formula Guides are the updated versions of the indispensable PANTONE Matching System tools for selecting, specifying and matching solid PANTONE Colours. All new colours have been specially formulated to print using a uniform ink film thickness, making them easily matched on press. Ink formulations are provided to aid printers in mixing colours. Includes colour index, lighting evaluation tool and design software. Set of two guides, coated and uncoated. Features 1,677 solid PANTONE Colours.

	Price
PANTONE PLUS Formula Guides - Coated and Uncoated Set WEBCODE: PANTFG	\$323.42

PANTONE PLUS Formula Guides - Premium Metallics

PANTONE Metallic Ink Mixing Book (Coated)

The PANTONE PLUS Formula Guides for Premium Metallics is an all new book of 300 dazzling metallic colours developed in response to the rapidly rising popularity of these special-effect inks. PLUS series metallic colours have greater brilliance, can be easily coated without any loss in lustre and have a longer life after printing without fear of tarnishing or blemishing. Fan guide is chromatically arranged, for more intuitive colour selection. Ink formulations are provided. Includes design software. Available on coated stock only.

	Price
PANTONE PLUS Formula Guides - Premium Metallics WEBCODE: PANTMFG	\$271.92

Pantone PLUS Colour Bridge Guide - Uncoated

CMYK PANTONE Mixing Set

The PANTONE PLUS Colour Bridge Uncoated is printed on uncoated paper stock to confidently manage and visualize color expectations, color conversion, and color matching when printing across graphics, digital design, web, animation, and video platforms.

	Price
PANTONE PLUS CMYK - Uncoated WEBCODE: PANTCBU	373.89

PANTONE PLUS CMYK - Coated and Uncoated Set

CMYK PANTONE Mixing Set

The PANTONE PLUS CMYK Guide illustrates 2,868 CMYK process colours and their corresponding values. These colours are unique to the Pantone graphics system and cannot be matched to Pantone spot colours. Use this guide when printing in four-colour process.

	Price

ACRYLIC

Acrycast Clear Acrylic Sheet

Premium Acrylic Sheet

Acrycast® cast acrylic sheet is a premium, high-quality branded product with a track record of over two decades, showcasing exceptional performance in global markets. These sheets possess outstanding physical, mechanical, optical, chemical-resistant, and thermal properties. Manufactured from a lightweight, rigid thermoplastic material, Acrycast sheets surpass glass in breakage resistance and maintain excellent outdoor stability under the Australian sun. Notable features include being 10 times more impact-resistant than glass, high optical clarity, UV resistance, and ease of cutting and fabrication. Moreover, Acrycast offers a remarkable 10-year durability and is compatible with both UV and latex applications.

Acrycast Opal Acrylic Sheet

Backlit and Illumiated Sheet

Acrycast Opal acrylic sheets are meticulously designed to offer consistent and bright illumination for backlit signage applications such as illuminated letters and light boxes. These sheets stand out not only for their even lighting but also for their exceptional weatherability and UV resistance, making them ideal for outdoor use. Additionally, Acrycast Cast Acrylic sheets are easy to fabricate and exhibit outstanding physical, mechanical, chemical-resistant, and thermal properties. This versatile material is well-suited for Laser cutting, Thermoforming, and Router cutting. The sheets further feature UV resistance, a bright white appearance, consistent color, and illumination, adding to their appeal. Their ease of fabrication makes them a preferred choice for various creative and functional applications.

Acrycast Satin Acrylic Sheet

Satin Sheet

Acrycast Satin Acrylic sheets have a smooth Satin textured surface finish to help obscure vision, creating privacy for screening and desk divider applications. Acrycast Satin sheets are also widely used for the aesthetically pleasing softer looking finish compared to traditional high gloss acrylic sheets in exhibition, point of sale and shopfitting applications. Our Acrycast Cast Acrylic sheet can be easily fabricated and have outstanding physical, mechanical, chemical resistant, and thermal properties. Ideal for Laser cutting, Thermoforming, Router cutting, UV and Latex printing.

Acrycast Mirror Acrylic Sheet

Indoor Mirror Sheet

Acrycast Acrylic Mirror sheets are commonly used as a glass mirror substitute, especially in situations where impact resistance or easy installation is crucial. These sheets can be easily cut using standard woodworking tools, or for more intricate designs, laser and router cutting are suitable options. Acrycast Acrylic Mirror is widely employed in the Point of Sale (POS), Shopfitting, Exhibition, and Display markets, particularly when there is a need for short-term decorative mirror finishes. It's important to note that these sheets are intended for indoor applications only.

ALUMINIUM COMPOSITE PANEL

NUBOND Primer

Aluminium Composite Panel

Nubond Aluminium Composite Panel is an ideal choice for large signage applications, architectural signs, display and exhibition, POS / POP display, digital and screen printing, photo mounting, interior design, industry and transport. Nubond is manufactured using a high-grade aluminium alloy and a virgin plastic core to enable grooving and folding without snapping. Our Primer coated sheets are an excellent cost effective substrate for mounting or laminating SAV printed graphics without paying for the additional cost of a painted mounting surface. Also very useful if you are needing to paint the surface to achieve a specified colour.

NUBOND Digital

Aluminium Composite Panel

Nubond digital sheets are produced using a specially formulated paint to ensure outstanding ink adhesion in direct printing applications. Furthermore, our masking film has been improved to facilitate easy removal, preventing any unwanted residue and ensuring a flawless print surface. Nubond aluminium composite panel sheets are certified for HP Latex Inks. Nubond digital aluminium composite panel sheets offers an optimal solution for a variety of applications, including large signage, architectural signs, displays, exhibitions, POS/POP displays, digital and screen printing, photo mounting, interior design, as well as industrial and transportation needs. Crafted from top-tier aluminium alloy and a virgin plastic core, Nubond ensures durability and flexibility, allowing for effortless grooving and folding without the risk of snapping. It comes in an extensive array of sizes, finishes, and thicknesses.

Palboard Hard Skin PVC Foam

Co Extruded PVC Sheet

PALBOARD is a hybrid version of Palram's solid PVC and foam PVC. This new breed of multi-layer PVC combines the extra-tough surface quality of solid PVC with the lightweight, easy-to-use characteristics of a foam PVC core made from recycled PVC. This marks a significant step toward Palram's overarching goal to improve sustainability and reduce plastic waste. PALBOARD has an ultrasmooth surface that offers excellent ink-adhesion for digital and screen printing applications. It's easy to fabricate, can be cold-bent with a v-groove cut, and provides good mechanical strength and excellent chemical resistance. This makes it ideal for a wide variety of interior sign, display, or other applications.

POLYCARBONATE

Palsun Clear UV2 Polycarbonate Sheets

Polycarbonate Sheets

Palsun UV2 Polycarbonate combines impact strength, transparency, low weight, flexibility, weatherability, thermal and fire resistance. Palsun is as transparent as glass, 250 times stronger and less than half the weight. Palsun's absolute resistance to breakage qualifies it as the best existing safety glazing material available, with impact resistance that is impervious to hammer blows, stones etc. Palsun UV2 is ideal for use in areas exposed to vandalism and in cases of high impact.

Roland VersaEXPRESS RF-640

1625mm Wide Format Printer

The Roland VersaEXPRESS RF-640 offers the perfect formula for digital printing success: high production speed, outstanding print quality, ease of use and unsurpassed reliability. The genius behind the Roland VersaEXPRESS RF-640 is reflected in its ability to quickly produce high quality graphics and prints, while keeping cost of operation low. That translates into increased output, satisfied customers and more money in your pocket.

- Rock solid stability, even at high speeds
- Time saving ink switching system
- High speed take-up system

Roland Texart RT-640

1625mm Wide Format Dye Sublimation Transfer Printer

The Roland Texart RT-640 sublimation transfer printer was designed to provide superb quality, productivity and value with ease of operation that will please both experienced operators and beginners. It boasts the new Texart dye sublimation ink, Roland's 3rd generation SBL3 ink, plus advanced, state-of-the-art print control technology for quality imaging and colour consistency at a top speed of 22m²/hr. Choice of RIP-Ergosoft Roland Edition or VersaWorks.

To best leverage the new ink system and customer workflows, we've included the premier RIP for sublimation – ErgoSoft Roland Edition Textile RIP and a choice of either four-colour (CMYK) or eight-colour (CMYKLCmOrVi) printing. A new feed adjuster and the optional take up system provide stability during high-speed printing. For trouble-free continuous printing and increased production capability, the RT-640 is equipped with the Roland Ink Switching System. In four-colour configuration, this innovative system allows the printer to automatically switch to a new ink pouch when the original runs out, providing up to 2000ml of ink per colour (CMYK only) for unattended printing.

Mimaki UCJV150-160 LED UV Printer/Cutter

1370mm and 1620mm Wide Format LED UV Printer/Cutter

The Mimaki UCJV150-160 Series is a 1610mm wide high-speed LED-UV printer with productivity and high weatherability UV Inkjet technology. Features a combination of high speed and quality printing. Since UV inks dry immediately when exposed to UV light, no drying time is required. This dramatically improves work efficiency for the user and shortens delivery times.

Mimaki LUS-150 (Flexible)

Even when using white ink, high speed printing of 24 m²/h is possible with Mimaki LUS-150 inks. White ink is ideal for use in window graphics and with other clear substrates. with a power-saving and long-lasting LED UV lamp.

Mimaki LUS-170

LUS-170 ink is a highly flexible UV Curable ink that is ideal for printing on rolled-goods such as vinyl banners, polyester film, adhesive vinyl, paper and even some fabrics. Provided in 2 Litre Bulk bottles, running costs are greatly reduced over cartridge-based inks.

Mimaki LUS-200 (Flexible)

The LUS-200 UV product is a premium performance ink with a strong, "flexible" touch - meaning it still provides all the expected capabilities of UV printer ink, but is optimised to meet demands for soft/flexible media and substrates. It is more flexible than the LUS-150 Flexible UV Ink.

Available in 2 colour setups - 4 Colour (CMYK) or 6 Colour (CMYKlLm)

	Type	Price
Mimaki UCJV150-160 LED UV - 1620mm	UV Printer	Available On Request

Mimaki UCJV300-160 LED UV

1620mm Wide Format LED UV Curable Printer

The Mimaki UJV300-160 Series is a 1610mm wide high-speed LED-UV printer available in dual CMYK or white with productivity and high weatherability UV Inkjet technology. Features a combination of high speed and quality printing. Since UV inks dry immediately when exposed to UV light, no drying time is required. This dramatically improves work efficiency for the user and shortens delivery times.

Available with 1 ink type configuration.

Mimaki LUS-170

LUS-170 ink is a highly flexible UV Curable ink that is ideal for printing on rolled-goods such as vinyl banners, polyester film, adhesive vinyl, paper and even some fabrics.

Provided in 2 Litre Bulk bottles, running costs are greatly reduced over cartridge-based inks.

Mimaki LUS-200 (Flexible)

The LUS-200 UV product is a premium performance ink with a strong, "flexible" touch - meaning it still provides all the expected capabilities of UV printer ink, but is optimised to meet demands for soft/flexible media and substrates. It is more flexible than the LUS-150 Flexible UV Ink.

Available in 2 colour setups - 4 Colour (CMYK) or 6 Colour (CMYKLcLm) (CMYKCC)

	Type	Price
Mimaki UCJV300-160 LED UV - 1620mm	UV Printer	Available On Request

Mimaki UJV100-160 LED UV

1620mm Wide Format LED UV Curable Printer

The UJV100-160 is a high-speed UV LED inkjet printer mounted with two newly developed printheads to deliver high image quality with maximum print resolution and speed. It is equipped with the DAS (Dot Adjustment System), which automatically adjusts the media setting and various other functions that make it possible to execute a fine and stable output with simple operations. Since UV inks dry immediately when exposed to UV light, no drying time is required. This dramatically improves work efficiency for the user and shortens delivery times.

Available with 1 ink type configuration.

Mimaki LUS-170

LUS-170 ink is a highly flexible UV Curable ink that is ideal for printing on rolled-goods such as vinyl banners, polyester film, adhesive vinyl, paper and even some fabrics. Provided in 2 Litre Bulk bottles, running costs are greatly reduced over cartridge-based inks.

- Maximum print speed 23m²/hr
- Maximum print resolution 1200 dpi
- "Clear ink" can realise high-value-added printing
- Low-cost model that retains high-quality print technology
- Newly developed print heads and Mimaki's proprietary head control technology
- Power saving, long-life LED-UV lamps and bottle-fed ink are eco-friendly

Mimaki UJF3042 MKIIEX DESKTOP FLATBED LED UV

Desktop Flatbed LED UV Printer

The Mimaki UJF3042 MKII/MKIIEX Series are 300 x 420mm x 153mm (A3) LED-UV printers with productivity and high weatherability UV Inkjet technology. Since UV inks dry immediately when exposed to UV light, no drying time is required. This dramatically improves work efficiency for the user and shortens delivery times. Available with 3 ink type configurations - 8 colour configurations. Delivers photo quality printing 1200 x 1200 DPI

Mimaki LH-100

Mimaki LH-100 Hard UV replaceable ink is designed for the JFX200 and JFX 500 Mimaki printers. This "hard" ink is optimised for rigid substrates.

Mimaki LUS-120

The high-performance LUS-120 UV curing ink possesses superior durability and flexibility. These two opposite properties provide beautiful and durable printing on flexible banner materials that cannot be laminated.

Mimaki LUS-150 (Flexible)

Even when using white ink, high speed printing of 24 m²/h is possible with Mimaki LUS-150 inks. White ink is ideal for use in window graphics and with other clear substrates. with a power-saving and long-lasting LED UV lamp.

HP

HP Latex 600 Series Printers

1625mm Wide Format Printer

The HP Latex 630 Print and Cut Plus Solution Printer offers a high-performance solution with impressive print quality, achieving vivid colors, smooth gradients, and sharp text at a rate of 14m²/hr. Its dual device capability allows simultaneous printing and cutting, ensuring accurate job recognition and error-free cutting. The printer facilitates efficient workflow with up to 10 GB of job storage, enabling easy reprinting of projects. Remote monitoring via the cloud-based HP PrintOS app provides flexibility, while the fast and automated front-loading system saves both time and space. Overall, this printer is a versatile and productive choice for those seeking a reliable and efficient printing solution.

- Save up to 50% of time by printing and cutting simultaneously.
- Instant dry HP Latex Inks
- Intuitive colour touchscreen and media basket
- Compatible with HP 832 Latex Inks, 1-Litre cartridges

HP Latex R1000 Printer Plus

Print Direct to Sheets up to 1640mm Wide

The HP Latex R1000 Printer Plus is your ideal solution for expanding your business into high-value rigid and flexible jobs, supporting media widths of up to 64 inches. With the vibrant HP Latex gamut and true-to-life media look and feel, this printer streamlines your workflow by eliminating the need for print and mount processes through direct printing onto rigid substrates. Achieve unparalleled results with the glossiest white on transparent and colored media, featuring high-opacity white that remains resistant to yellowing over time. The automatic maintenance functions treat white like any other color, incorporating features such as automatic recirculation and nozzle checks.

This printer provides versatility through a single set of inks, offering both scratch resistance and flexibility with the addition of HP Latex Overcoat. Experience the convenience of automatically controlled vacuum zones, facilitating easy loading and allowing pressure adjustments based on the media type.

- Maximum media thickness: 5 cm (2 inches)
- 3-litre ink cartridges for colors and white
- Indoor Production: 28 m²/hr (301 ft²/hr) – 7 boards/hr
- Single roll up to 68 kg (149.9 lb)

HP Latex 315 Print and Cut Solution

1400mm Wide Print and Cut

Elevate your workflow to unprecedented levels of efficiency with our cutting-edge solution, enabling you to work two times faster through its seamless integration of printing and cutting processes. Unlike conventional print OR cut devices, our end-to-end system empowers you to print AND cut simultaneously, revolutionizing the production landscape. Every step of the process is enhanced, from the versatility of printing to the swift cutting phase and meticulous application design. The system boasts indoor quality output of 12sqm/hr, accommodating a roll width of up to 1370mm, and is powered by the reliable HP 831 775ml Latex Ink Cartridges. Key features include the HP Optical (OMAS) Media Advance Sensor for precise media handling and an automatic X-axis cutter, ensuring efficient and accurate cuts. Experience cutting-edge performance with a diagonal cut speed of up to 113cm/sec and a customizable cut force ranging from 0 to 600 grams of downforce. Additional advantages include the integration of the HP Barcode system and OPOS marks, along with the flexibility of the FlexiPRINT and CUT RIP, making this solution a game-changer for those seeking unmatched speed and precision in their printing and cutting workflows.

MASSIVIT 3D

Massivit 1800 3D Printers

Massivit 1800 Flagship and 1800 PRO 3D Printers

The Massivit 1800 Flagship and 1800 PRO 3D Printers leverage unique, patented Gel Dispensing Printing (GDP) technology to produce lightweight, large format, hollow models and displays without geometric constraints or the need for complex support structures. This means reduced time, cost, and waste. In addition, flexible levels of transparency allow for illumination, backlighting, a range of finishes and even video mapping.

The Massivit 1800 Flagship and 1800 PRO 3D Printers are the first of their kind to produce supersize, crowd-stopping signage, displays, and props for visual communication. Offering an unprecedented printing speed, it is designed to enable business growth through scalability of printing heads and versatile printing materials.

BRM

BRM Laser Slim

Laser Cutter and Engraver

BRM is a series of lasers suited for a smaller budget, yet with the most optimal European safety standards. Eliminating the risk of needing to purchase a laser that could possibly be unsafe. Rated the highest safety standard: laser class 1. Along with a 2-year full warranty and software updates, this is a unique offer in the market. Every Slim is delivered with our BRM quality checklist and includes all the components needed to get started with the machine: A water chiller, air pump, red pointer, non-filtering fume extractor, honeycomb table, LightBurn software, maintenance set, our manual and one lens.

- Work faster, deliver faster with no pos-processing required
- Dustfree guiding rails
- Ultrasonic autofocus
- Software-controlled air valve
- 2-year full warranty

BRM Laser Pro

Laser Cutter and Engraver

A groundbreaking line of laser machines characterized by a unique mechanical build. These machines boast fully renewed dust-free guiding rails, ensuring an unprecedented level of stability. This stability allows for the integration of more powerful motors, significantly enhancing the working speed of the machines—an impressive feat with multiple benefits. Running off LightBurn software, The Laser Pro is user friendly, simplifying the process of translating ideas and designs into tangible results.

BRM Laser Pro features include ultrasonic autofocus, software-controlled filter regulator, and timed exhaust shutdown. These enhancements not only improve usability but also contribute to more precise and efficient cutting of end products.

- Work faster, deliver faster with no pos-processing required
- Dustfree guiding rails
- Ultrasonic autofocus
- Software-controlled air valve
- 2-year full warranty

BRM Laser Open Bed

Open Bed Laser and Engraver

By default, all Open Beds come with a 2-year full warranty and software updates. Several extras are available. Upgrades clearly adding value for certain applications. Such as a top extraction unit for frequent engravers. Or the software controlled filter regulator when primarily working with soot-forming materials. These options ensure enhanced operator comfort and improved end results. This makes our Open Bed laser the ideal machine to increase and enlarge production capacity. Every Open Bed is delivered with our BRM quality checklist and includes all the components needed to get your production going: A water chiller, two non-filtering fume extractors, Light-Burn software, maintenance set, our manual and two lenses.

- Increase production capacity with no pos-processing required
- With moving source on mobile axis for superior accuracy
- Ideal for cutting Arcylic letters
- Software-controlled air valve
- 2-year full warranty

BRM Laser Extractor

Laser Extractor System for BRM Lasers Machines

The BRM Extractions system takes performance and safety parameters to a new level and ensures that maintenance downtime and ownership costs are kept to a minimum. Operators benefit from ease of operation and clarity of real time information, the system also provides a case of analytical data, enabling users to download performance and operating parameters for evaluation purposes.

- Three stage filtration
- 99.9% HEPA filtration
- DeepPleat DUO technology
- Voltage Sensing
- Automatic Flow Control
- Doubles as a Workspace

COLEX

Colex SX Series Flatbed Cutter

Large Format Flatbed Cutter

Colex SharpCUT PRO Standard a powerful and versatile digital cutting system incorporating interchangeable tools, router and laser to accommodate all cutting and finishing requirements. Colex SharpCUT matches extreme reliability with perfect accuracy in an unmatched cost of ownership package. Video recognition system and software allows for accurate print and cut registration. A range of blades, wheels, router and laser will accommodate cutting of all materials from acrylic, aluminium, fabric.

The unique design of the Colex Sharpcut's triple interchangeable tool head allows your operator to transition from routing, knife-cutting, and kiss-cutting rapidly. By default, the Colex Sharpcut includes a fixed knife, an oscillating knife, and a router, allowing you to maximize the full capability of the table for a multitude of applications. Optional add-on tools are available for customization to suit your specific needs and workflow

- Increased Acceleration & Cutting Speeds
- Triple Interchangeable Tool Head
- Vision Registration System & Camera
- Energy Efficient 6-Zone Vacuum System
- Solid Steel Welded Frame

	Type	Price

CWT WORKTOOLS

CWT Work Tables

The New Generation Work Table

CWT Worktools Flatbed Applicators make mounting and laminating effortless you just align the application surface and media, press the button, remove the backing and glide the roller across the table. The finished product is perfectly aligned and bubble free. Ideal for applying graphics to glass, metal or fabric, laminating signs, mounting boards and more.

The CWT Worktools Flatbed Applicators are ergonomically designed worktables that improve workflow. Made in Europe from hardened steel to ensure sturdy construction and are available in a range of sizes and options to suit your needs.

- Equipped with an ergonomic handle and a boom with extra low friction
- Equipped with reanyl plastic on top of the table
- Push button is pneumatic (air-controlled)
- Features split tempered glass, which is safer and more durable in use

FORTE LAMINATORS

Forte Franklin PRO Wide Format Laminator

1600mm Multi Function Automatic Laminator

The Franklin PRO D1600EMTN is a wide format Heavy Duty 1600mm Heat Assist Lamintor, perfect for laminating both small jobs, and full 50m rolls. With adjustable speed and heat settings, pneumatic adjustable roller pressure, silicon rubber rollers and adjustable slitting blades, this is the perfect solution to your lamination requirements

- Roll to Roll Lamination
- Pneumatically Adjustable Pressure for Laminating Roller
- Variable Speed and Temperature
- Silicon Rubber Rollers to prevent sticking
- Swing Out Mandrels
- Adjustable Media Tracking "On the fly"
- Adjustable Slitting Blades

EMSEAL LAMINATOR

Emseal EmTak 1650 2R Wide Format Laminator 1650mm Heat Assist Automatic Laminator

The Emseal EmTak 1650 2R is a wide format heat assist laminator. With two opening rollers, it allows processes such as block mounting, lamination of thick items with simultaneous double sided lamination of items. Ideal for applying pressure sensitive films and double sided adhesives to inkjet media as used widely in the signage industry. Perfectly suited to laminating cardboard, foamcore and rigid substrates.

- Heat assist in top roller as standard
- Powerful variable speed reversible motor
- New and improved rewind system
- Opening rollers to 10mm
- New sliding feed table design
- Lower print holder
- Made in Australia with 5 year parts warranty

LAMINATION SYSTEM LAMINATORS

Sign Easy 1600 PLUS Heat Assist Laminator

1600mm Sign Easy PLUS Laminator / Mounter with Heat Assist

The Sign Easy 1600 PLUS Heat Assist Mounter Applicator, a robust solution for efficient laminating and mounting tasks up to 1600mm wide and 35mm thick. Engineered with precision, it features a user-friendly interface and advanced product feed and rewind mechanisms for seamless roll-to-roll finishing.

Key features include 120mm diameter silicon rollers, offering optimal pressure and durability, alongside heat assist functionality up to 60 degrees Celsius for enhanced adhesion. The one-touch open and close rollers, quick load mandrels, and infrared safety eyes ensure hassle-free operation and operator safety.

Designed for convenience, it comes with a removable feed guide, foot control for hands-free operation, and a heavy-duty stand with castors for easy manoeuvrability. The Sign Easy 1600 PLUS is the dependable choice for cost-effective wide-format print finishing, combining quality performance with simplicity for unparalleled results.

Roland ECO-UV 4 Inks

220ml and 500ml ECO-UV Inks

Roland ECO-UV 4 inks feature a change in chemistry that reduces odour, improves colour stability and limits the shrinking of thin film materials like BOPP, PE and PET when curing. The new ink is not identified as dangerous goods under the UNRTDG classification, and therefore does not incur any additional freight surcharges. In addition to a 220ml cartridge, a new, larger 500ml cartridge has been introduced in response to user requests (white ink is only available in 220ml cartridges).

Roland Texart Sublimation Inks

8 Colour 1000mL Pouches

Developed specifically to work with the Texart RT-640 dye-sublimation printer, the Texart ink delivers vivid colours with superb quality and works with the Texart RT-640 to provide highly stable performance. Ideal for use on a wide range of applications including apparel, signs, interior décor, fashion and original goods. Bring in the Texart CS-64 Calender unit to perfectly finish the products created with the Texart RT-640 sublimation printer and inks - the combined Texart solution will provide you with the dye-sublimation package your business has been racing to find.

Texart inks are available in both four (CMYK) and eight colour versions (CMYK plus Light Cyan, Light Magenta, Orange and Violet) - and the outstanding colour quality means that previously colours which were printed on sublimated fabrics looked faded with dulled blacks, missing grays and fuzzy details are replaced with the Texart inks bold, vibrant colours and rich velvety blacks, as well as subtle gradations and fine details.

MIMAKI INKS

Mimaki Latex Inks

660ml CMYKOrG and 220ml White Inks

Mimaki Latex Inks are water-based latex inks designed to produce vivid colours. Features orange and green inks that cover 93% of approximate Pantone colour charts with high reproducibility of colour gamuts that cannot be achieved by traditional 4 colour printing along with the world's first white latex ink. Mimaki Latex inks fixation and curing times are immediate and require no ink dry time. Mimaki Latex inks also have minimal VOC's (volatile organic compound) which does not need any special ventilating equipment.

Mimaki UV Inks

LH-100 (Hard), LUS120 (Flexible), LUS-150 (Flexible), LUS170 (Flexible) and LUS-200 (Flexible) LED Inks

Mimaki LH-100 (Hard) Inks are hard UV inks that are impervious to scratching when cured. These advanced UV curable inks produce a hard ink film that is highly resistant to scratches and chemicals while providing excellent colour reproducibility. Perfect for applications that require no secondary processing such as bending, twisting, etc.

Mimaki LUS-120 (Flexible) inks are flexible LED UV inks that are resistant to post-curing cracking. These inks are flexible up to 170%* resulting in increased elasticity and bending performance on wide variety of media and substrates without cracking and fracturing. The cured ink film is less tacky yet still resistant to cracking even with secondary processing.

Mimaki LUS-150 (Flexible) inks are flexible LED UV inks that are resistant to post-curing cracking. These inks are flexible up to 150%* resulting in increased elasticity and bending performance on wide variety of media and substrates without cracking and fracturing. The cured ink film is less tacky yet still resistant to cracking even with secondary processing.

Mimaki LUS-170 (Flexible) inks are flexible LED UV inks that are resistant to post-curing cracking. Features superior flexibility* resulting in increased elasticity and bending performance on wide variety of media and substrates without cracking and fracturing. The cured ink film is less tacky yet still resistant to cracking even with secondary processing.

Mimaki LUS-200 (Flexible) inks are an extremely flexible* LED UV inks that are resistant to post-curing cracking. Features superior flexibility* and are ideal for applications with curved surfaces, such as vehicle wraps and fleet graphics, where stretching can result in breaking with other UV inks.

*Ink flexibility of LUS-150 and LUS-200 may vary according to the substrate, please verify your substrate in advance.

HP INKS

HP Latex 831B Inks

775mL Latex Inks for HP 310/315/330/335/360/365/560/570 Printers

Achieve exceptional image quality and consistency across a diverse range of substrates with HP® 831B Latex Ink Cartridges. Specifically designed for compatibility with HP® 300 and 500 Series Latex printers, these cartridges deliver superior performance. The water-based HP Latex Inks not only set your output apart but also contribute to a more sustainable environment. This ink technology ensures high-quality results for both outdoor and indoor applications. Compatible with HP Latex 310/315/330/335/360/365/560 printers, these cartridges offer a versatile solution for various printing needs.

HP Latex 881 Inks

5 Litre Latex Inks for HP 1500/3100/3200 Printers

Sharpen your competitive edge and achieve high image quality across a diverse range of outdoor and indoor projects with HP Latex Inks, suitable for the 1500 and 3600 printers. Consider unlaminated use for short-term graphics, offering scratch resistance comparable to hard-solvent inks on SAV and PVC banners. Keep interruptions minimal with 5-litre ink cartridges, specially formulated to optimize printhead performance and ensure consistent results at high speed. Prints emerge completely dry and ready to use, contributing to efficient workflows. Set your offerings apart and align with environmental objectives using UL ECOLOGO Certified HP Latex Inks, which are water-based, free from hazard warning labels, HAPs, and nickel, producing odorless prints. Ideal for large and very large print service providers engaged in retail advertising, outdoor advertising, event and exhibition displays, vehicle graphics, and interior decoration, these inks cater to the unique demands of the 1500 and 3600 printers.

STANDARD TERMS AND CONDITIONS OF SALE GRAPHIC ART MART PTY LIMITED

1. Application of Terms

1.1 These Standard Terms of Sale ("Terms") apply to all Goods sold by the Company to each entity ("the Customer").

1.2 These Terms, together with the Credit Application, any Trading Agreement, as well as any Quote, Order and tax invoice in relation to the supply of Goods by the Company to the Customer, constitute the entire agreement between the Company and the Customer ("the Agreement"). There are no other terms and, to the extent permitted, all other terms including warranties that may be implied, including statutory terms, are excluded.

1.3 In relation to inconsistency:

- a) to the extent of any inconsistency between these Terms and the terms of the Credit Application, the terms of the Credit Application shall prevail;
- b) to the extent of any inconsistency between these Terms and the terms of any Trading Agreement, these Terms shall prevail unless otherwise expressly stated in the Trading Agreement; and
- c) to the extent of any inconsistency between these Terms and a Quote, Order or tax invoice in relation to the supply of Goods by the Company to the Customer, these Terms shall prevail.

1.4 These Terms may be varied at any time by the Company. The terms at the time of delivery of Goods will prevail if there is any conflict.

1.5 Any modification to these Terms discussed between the Company and the Customer orally will be effective only after confirmation by the Company in writing.

2. Definitions

2.1 In these Terms:

- a) "Collection Notice" has the meaning given to it in clause 6.2.
- b) "Credit Application" means an application made by the Customer (and any guarantor) to the Company for the Company to supply Goods to the Customer on credit (including the Credit Facility Terms and Conditions attached to a Credit Application).
- c) "Credit Limit" has the meaning given to it in the Credit Application.
- d) "Delivery Date" means:
 - (i) if the ordered Goods are to be collected from the Company's premises, the earlier of:
 - (A) the date on which the Goods are collected; and
 - (B) the date fifteen (15) days after the date of the Collection Notice;
 - (ii) if the ordered Goods are to be delivered to the Customer:
 - (A) by the Company or an agent or contractor of the Company, the date that the Goods are offloaded at the Customer's premises;
 - (B) by an agent or contractor of the Customer, the date that the Goods are preloaded at the Company's premises;
 - (C) directly by a manufacturer in Australia, the date that the Goods are offloaded at the Customer's premises; and
 - (D) directly from outside of Australia, the date that the Goods are offloaded at the Customer's premises.
- e) "Due Date" has the meaning given to it in clause 6.3.
- f) "Goods" means the Goods that the Company supplies in the course of its business.
- g) "GST Law" includes the Act entitled A New Tax System (Goods and Services Tax) Act 1999.
- h) "Invoiced Amount" means the amount set out in a tax invoice issued by the Company to the Customer for the relevant Goods, including any charges set out in clause 6.1;
- i) "Order" means an order from the Customer to the Company for the supply of Goods.
- j) "PPSA" means the Personal Property Securities Act 2009 (Cth).
- k) "Payment Term" has the meaning given to it in the Credit Application.
- l) "Quote" means a price quotation given by the Company to the Customer for the supply of Goods either orally, in writing or via its website.
- m) "Quoted Price" means the price quoted by the Company in a Quote, as varied in accordance with this Agreement.
- n) "Trading Agreement" means any agreement between the Customer and the Company in relation to the supply of Goods to the Customer (including special conditions of order) that is in writing and signed by an authorised representative of the Company and the Customer.

3. Quoting and Pricing

3.1 Subject to the balance of these Terms, a Quote given by the Company to the Customer will remain valid for the period stated in the Quote, or if no such period is stated, for a period of thirty (30) days.

3.2 Without limiting any other right of the Company, the Company may vary the Quoted Price in the following circumstances:

- a) if the Customer requests any change to the number of Goods to be supplied or the delivery address;
- b) if the Customer requests any change to the Quoted Price and the Company agrees to the request;
- c) if the Customer requests to make any change the Quote at a time when new standard prices apply to the Goods as set by the Company; or
- d) if the wholesale price of a Good referred to in a Quote, or the freight or delivery cost in relation to that Good, increases prior to the date of issue of the tax invoice for that Good;
- e) if the Customer has not yet ordered the Goods the subject of the Quoted Price;
- f) in accordance with clause 11.1.

3.3 All prices quoted or advised are strictly based on the quantity and the pack sizes at the date of quotation or order. Prices may be varied to those at the date of delivery and will be adjusted accordingly to any change in any costs to the Company or variation in quantity or pack sizes. Prices are exclusive of GST unless otherwise stated.

3.4 No other promotion, special offer, discount or bonus shall be applicable to a Quoted Price where a discount has already been applied.

3.5 In the event that the Quote is amended in accordance with these Terms, the Company may in its discretion amend any discount applied in a Quote.

3.6 Without limiting the rights of the Company, the Customer acknowledges that the price payable by the Customer for all Goods to which a base metal (including but not limited to) copper fluctuating price applies shall depend on the price of the respective base metal at the time that the Company accepts a purchase order for those Goods.

4. Customer Orders

4.1 Orders once received from a Customer are irrevocable unless otherwise agreed to by the Company in writing on a case-by-case basis or cancelled by the Company in its absolute discretion. The Company may withdraw from the supply of Goods ordered or unilaterally cancel any Quote or Order at any time up to delivery without any liability to the Customer (other than to refund any deposit paid by the Customer in respect of that Quote or Order).

4.2 Orders once received cannot be deferred or suspended unless otherwise agreed to in writing by the Company and the Customer indemnifies the Company for any loss associated with the deferral. Confirmation of order documents must be clearly marked, otherwise they will be treated as original Orders.

4.3 If, after the placement of an Order, the Customer directs that delivery be spread over additional lots to different addresses from those specified in the Order, then each such delivery will be deemed to be a separate quantity and a novation of the original contract and may be priced accordingly. The Customer will be liable for any additional costs incurred in that regard by the Company.

4.4 If for any reason the Goods ordered are unavailable, the Company has the right to substitute alternative Goods provided they are reasonably equivalent in all respects (unless the Order specified otherwise). If quantity and pack sizes vary from the date of Quotation or Order the Company may substitute alternative sizes but not so that the Customer is required to purchase in aggregate more Goods than ordered.

4.5 If the Company agrees to make available any Goods for the carrying out of any tests or certification processes then those tests or processes will be carried out by the Customer at the Customer's cost and risk. By providing Goods for the undertaking of testing or certification processes pursuant to this clause, the Company expressly does not assume any responsibility for the Goods whatsoever including any liability if the results of the tests or certification processes carried out are wrong.

4.6 Where the Agreement is entered into conditional on the Customer's approval of a sample provided by the Company, the Company gives no undertaking, express or implied, that the Goods supplied will be exactly the same as the sample, although reasonable endeavours will be made to supply Goods as close to the sample as possible. The Customer is not discharged from its obligations under these Terms if the Goods are found not to be identical.

4.7 The Customer must specify the details of the standard that Orders for Goods must comply with if that standard is different or additional to the applicable Australian or International Standards.

5. Packaging and Delivery

5.1 Delivery will take place at the Company's premises where the Order is accepted unless the Company agrees to effect delivery or arrange freight to an address specified by the Customer, in which case delivery will take place at such address.

5.2 If the Goods are being delivered to an address nominated by the Customer, the Customer shall be responsible for the offloading of Goods from the delivery vehicle and the Customer will provide all necessary labour and equipment to safely offload the Goods at a reasonable access point at any nominated delivery address. The Customer must ensure that it meets all applicable workplace health and safety requirements and have all necessary licences and approvals in relation to the offloading of the Goods.

5.3 Upon request of the Company, the Customer must return any pallets or cable drums used for the delivery of the Goods to any of the Company's or its agent's warehouses, stores, factories or offices at the Customer's expense. Any pallets or cable drums not returned within 14 days after request are to be paid in full by the Customer to the Company on demand at a valuation determined by the Company. Such valuation shall be final and binding as between the parties.

5.4 The Company reserves the right to supply or deliver by instalments, and each instalment will be deemed to be sold under a separate contract. Failure to supply or deliver any instalment will not entitle the Customer to repudiate any order.

5.5 The Company shall use its reasonable endeavours to make the ordered Goods available for collection, or to deliver the ordered Goods to the Customer, on the anticipated delivery date. The Company makes no warranty that it will make the ordered Goods available for collection, or deliver the ordered Goods to the Customer, by the anticipated delivery date, and the Company shall be not liable in relation to same.

5.6 The Company's delivery note or tax invoice is prima facie evidence of delivery of the Goods identified in that document.

6. Invoicing and Payment

6.1 In consideration for the supply of the Goods, the Customer shall pay to the Company the Invoiced Amount which may include charges for the following (regardless of whether or not they formed part of any Quote):

- a) altering items to non standard package sizes;
- b) drums, cases, packages and reels;
- c) special packaging or tooling requirements;
- d) insurance for Goods in transit from the Company's premises;
- e) handling, packaging and processing in the event that the value of an Order is less than any minimum order value or quantity that has been previously stipulated by the Company or agreed to by the parties.;
- f) service fee or charge determined by the Company from time to time;
- g) any charge, duty or impost of any kind in connection with the Goods;
- h) delivery and freight costs, including but not limited to expenses incurred by the Company due to deferral of delivery at the Customer's request beyond the delivery date specified or cancellation of the Customer's invoice (subject to any free freight agreement offered by the Company from time to time); and
- i) GST and all other statutory taxes and charges.

6.2 If the ordered Goods are to be collected, the Company shall notify the Customer in writing or orally once the ordered Goods are available for collection from the Company's Premises ("Collection Notice").

6.3 The Customer must pay to the Company the Invoiced Amount on the due date as follows:

- a) if the Goods are to be supplied on credit in accordance with an approved Credit Application, by the last day of the Payment Term; or
- b) otherwise, by the date of the tax invoice for the relevant Goods.

6.4 In the event that the Customer:

- a) has not collected the relevant Goods within fourteen (14) days of the date of the Collection Notice, the Customer must indemnify the Company for all costs (including any storage costs) incurred by the Company in storing the Goods from the Due Date;
- b) has not collected the relevant Goods within three (3) months of the date of the Collection Notice:
 - (i) the Company may dispose of or otherwise deal with the Goods in any way it sees fit in its absolute discretion without any liability to the Customer for any loss, and the Customer must indemnify the Company for all costs incurred by the Company in disposing or otherwise dealing with the Goods; and
 - (ii) the Customer is deemed to have forfeited, and the Company shall be entitled to retain, any deposit paid to the Company in respect of the Goods.

6.5 Notwithstanding any credit arrangement between the Company and the Customer or any other provision in these Terms, if required by the Company, the Customer may be required to pay to the Company a deposit on the Goods upon the order of any Goods that will be made-to-order.

6.6 Payment by the Customer under these Terms must be made in cleared funds using the method directed by the Company.

6.7 In the event that:

- a) the Customer does not pay the Invoiced Amount by the Due Date; or
- b) the aggregate of the Invoiced Amount for all Goods, together with the any other costs payable by the Customer to the Company under these Terms, exceeds the Credit Limit,

then without limiting any other right the Company may have:

- c) the Company may suspend or cancel undelivered Orders; and
- d) the Customer must indemnify the Company in respect of any such cancelled Orders.

6.8 The Customer must pay interest equal to 1.5% per month for each month or part thereof on overdue amounts payable under these Terms from the Due Date until paid.

6.9 The Customer shall pay to the Company all expenses incurred by the Company in collecting or attempting to collect any moneys due and payable by the Customer to the Company as well as preserving the Company's rights under these Terms and the terms of the Credit Application, including the cost of debt collectors and legal fees on a full indemnity basis, commercial agents' commission, bank fees, freight, insurance, registration costs, enforcement costs and loss of profit.

6.10 All payments are to be made to the Company without deduction or equitable or other set off whatsoever.

6.11 The Company may apply and allocate payments received by, or on behalf of, the Customer in a manner in the Company's absolute discretion, including so as to attribute the payments to satisfy obligations which are or are not secured by a purchase money security interest or otherwise.

7. Online purchases and display and description of Goods

7.1 The Customer acknowledges that, while the Company has endeavoured to properly describe Goods on its website, in its catalogues, in its stores and on any other material including textures, appearances, colours, weights and measures of the Goods, such description may vary from the actual Good.

7.2 The Company does not guarantee or warrant that the product images are an exact representation of the actual Goods.

7.3 The Company may reject an Order placed either through the Company's website or via other means for any reason including without limitation unavailability of a Good, an error in the price, an error in the image or the Good description or error in the Order itself, in which case the Company shall refund to the Customer any amount paid in respect of the rejected Order.

7.4 The Customer acknowledges that the prices for the Goods set out on the Company's website may vary between the Company's stores and those set out on its website.

8. Risk**8.1 Risk**

a) Notwithstanding delivery or freight arrangements or the date on which title passes, risk (including deterioration, loss or damage) in the Goods ordered by the Customer passes to the Customer as follows:

- (i) if the Goods are to be collected, on the date of the Collection Notice;
 - (ii) if the Goods are to be delivered by the Company, or an agent or contractor of the Company, at the time immediately prior to the offloading of the Goods at the premises nominated by the Customer;
 - (iii) if the Goods are to be delivered by a contractor or agent of the Customer, at the time of preloading of the Goods at the Company's premises;
 - (iv) if the Goods are to be shipped directly from the manufacturer in Australia, at the time immediately prior to the offloading of the Goods at the Customer's premises;
 - (v) if the Goods are to be shipped directly from outside Australia, at the time immediately prior to the offloading at the Customer's premises.
- b) The Customer is responsible for all insurance of and relating to the Goods from the point when risk passes.

9. Title and Security Interests

9.1 Ownership of, and title in, the Goods will not pass to the Customer until the Customer has paid to the Company the Invoiced Amount payable in respect of those Goods.

9.2 Until title in the Goods passes to the Customer in accordance with 9.1:

- a) the Company has the right to call for or recover the Goods at its option and the Customer must deliver up the Goods if so directed by the Company;
- b) the Customer must hold the Goods as bailee for the Company and must store the Goods on its premises separately from other Goods held by the Customer;
- c) the Customer must maintain proper records of any sale or disposal of the Goods;
- d) the Customer must keep the Goods fully insured;
- e) the Customer must hold the Goods in a fiduciary capacity for the Company;
- f) the Customer must not sell or dispose of the Goods except in the ordinary course of business;
- g) the Customer will hold the proceeds of any sale or disposal of the Goods (whether tangible or intangible, direct or indirect) to the extent of the amount due to the Company in respect of the Goods on trust for the Company, and will hold such proceeds in a separate account for the Company's benefit and promptly pay that amount to the Company.
- h) the Company retains a purchase money security interest in the Goods ("PMSI") and the proceeds of sale of the Goods (including any accounts and accessions by virtue of these Terms) under the PPSA;
- i) the Customer consents to the Company registering a security interest under the PPSA and agrees to do all things reasonably required by the Company to effect such registration;
- j) the Customer waives any right the Customer has under PPSA to receive notice in relation to registration of the Company's interest in the Goods under the PPSA; and
- k) the Customer will immediately advise the Company of any changes which may affect the Company's security interest.

9.3 At all times the Customer will allow the Company (including its officers, employees, contractors and agents) access to the Customer's premises, to any other premises where the Goods are stored during normal business hours and to the Goods themselves in order to inspect the Goods and retake possession of the Goods under clause 9.2(a), and the Customer grants to the Company an irrevocable licence to enter the aforementioned premises for this purpose. The Customer acknowledges that this access shall be full, free and unhindered and shall not be or constitute trespass by the Company. The Customer indemnifies the Company for any liability or loss it suffers seeking to exercise its rights of access and retaking possession of the Goods.

9.4 The Customer acknowledges and agrees that the PMSI has attached or will attach to all Goods supplied to the Customer by the Company now or in the future at the time when the Customer takes possession of the Goods. The Customer shall do all things necessary, including providing all information required, to register a financing statement or financing change statement on the Personal Property Securities Register ("PPSR") as a security interest and a purchase money security interest pursuant to the PPSA. The Customer must not change its name, ACN or ABN or other details required on the PPSR without first notifying the Company. The Customer agrees that the Company's security interest over the Customer's future or acquired property has the same priority as present property and is not subordinated in any way. The Customer shall pay the Company's costs of any discharge or necessary amendment of any financing statement or financing change statement. The Customer must immediately notify the Company in writing of any change which may affect the security interests granted by the Customer to the Company.

9.5 The Customer waives its right to receive any notice under the PPSA including a verification statement in respect of any financing statement or financing change statement in respect of the security interests created pursuant to these Terms. To the maximum extent permitted by law, the Customer agrees that the sections 118, 121(4), 125, 130, 142, and 143 of the PPSA will not apply. To the maximum extent permitted by law, the Customer waives any rights it may have pursuant to, and hereby contracts out of sections 95, 118, 121(4), 123, 129(2), 130, 132, 134(2), 135 157 and Part 4.3 of the PPSA.

9.6 If the Customer becomes bankrupt or enters into external administration or has a receiver appointed to it, the Customer's right to sell the Goods in the ordinary course of business and any other rights of the Customer in respect of the Goods immediately cease (to the extent permitted by law) and the Customer must immediately return to the Company the Goods in which title has not passed.

9.7 Clauses 9.1 to 9.6 apply, mutatis mutandis, to Goods that have been created, reconstituted or manufactured by using or processing the Goods by replacing the word "Goods" with "Reconstituted Products".

9.8 The Customer hereby grants to the Company a security interest over all of its present and after acquired property as security for payment of all moneys owing by the Customer to the Company at any time, and as security for the performance of the Customer's obligations under the Agreement.

9.9 In addition to the security interests referred to in this clause 9, the Customer, or where the Customer is a partnership, each partner of the partnership, both jointly and severally, hereby charges as beneficial owner all of its freehold and leasehold interest in real property (including land acquired in future) in favour of the Company as security for payment of all moneys owing by the Customer to the Company at any time, and as security for the performance of the Customer's obligations under the Agreement.

10. Intellectual Property

10.1 As between the Company and Customer, the Company shall at all times retain ownership of and all interest in all intellectual property relating to the Goods, including copyright in all documents, drawings and specifications produced by the Company or on the Company's behalf in connection with the Goods.

10.2 The Customer must not reproduce, modify, amend or publish, or allow to be reproduced, modified, amended or published, the Company's registered or unregistered trademarks, names or logos without first obtaining the prior written consent of the Company.

11. Warranty and Indemnity

11.1 Errors and misprints in computation, typing or otherwise in the Company's documents including catalogues, price lists, delivery docket, tax invoice, Quote or statement or credit note shall be subject to correction by the Company by means of reissue of the document or by adjusting dockets with reference to the original transaction.

11.2 The Customer acknowledges that where the Company is a wholesaler or reseller of the Goods, it does not hold sufficient technical expertise or skills to evaluate a Customer's requirement or orders.

11.3 Where the Company is the manufacturer or fabricator of the Goods, the Company gives the warranties (subject to the limitations set out therein) as set out on the following webpage amended from time to time – <https://www.gamart.com.au>.

11.4 Warranties and provisions that may be implied by the Competition and Consumer Act 2010 and any other legislation are expressly excluded except to the extent that exclusion is prohibited by the legislation and this overrides these terms.

11.5 To the extent permitted by law, unless otherwise set out in these Terms, the Company gives no warranty whatsoever in relation to the Goods sold to the Customer, whether in regard to the quality of the Goods, fitness of the Goods for any purpose or the compliance of the Goods sold with any description or sample produced by either party to the other at any time, whether prior to, at the time of or subsequent to the Customer placing an order for the Goods with the Company, or otherwise. The Customer warrants that the Goods will be installed and used:

- a) only in applications for which the Goods were manufactured and are able to be satisfied by the Goods specifications; and

b) in accordance with all manufacturer's instructions and industry standards including being fully tested as safe prior to use. 11.6 To the extent permitted by law, unless otherwise set out in these Terms, the Company's liability under:

- a) any claim that the Customer has or may have against the Company in relation to a Good supplied by the Company, whether that claim is based in contract, common law or statute or otherwise, including law relating to negligence by the Company; or
- b) any implied term, condition or warranty which has not been excluded, is limited, at the option of the Company, to the repair by the Company of the Good, the re-supply by the Company of the Good or the refund of the price paid by the Customer for the Good giving rise to liability.

11.7 The Company shall not be liable for:

- a) any economic loss, including loss of profits or wasted expenditure, or any loss of goodwill, Customers or any incidental, special or consequential loss arising out of or connected to the supply (or non-supply) of Goods by the Company;
- b) damage suffered by the Customer, including damage to property or personal injury, arising from the supply of Goods. 11.8 In no case will the Company incur liability for any loss or damage exceeding the sale price of the Goods paid by the Customer for the Goods nor on account of losses or damages suffered by the Customer including loss of profit, damage to property or personal injury arising from that supply or that agreement, whether arising directly, incidentally or consequentially.

11.9 All information contained in any documents, catalogues, price lists, photographs, brochures and other illustrations or advertising material and drawings represent generally the subject matter of the Goods and will not be taken as necessarily representing the Goods the subject of any quotation or order and will not form part of any contract or agreement for supply.

11.10 Except as otherwise expressly provided in these Terms, the Customer releases the Company from all actions, claims, demands, losses, liability, damages and expenses arising from or in relation to the supply of the Goods and indemnifies the Company for any loss or liability that the Company may suffer (including the legal costs on an indemnity basis in defending or prosecuting any claim) arising from the use by the Customer of the Goods or a breach of these Terms including warranties by the Customer.

11.11 Any advice, recommendation, information, assistance or service provided by the Company in relation to Goods sold by it or their use or application, is given in good faith. However, any advice, recommendation, information, assistance or service provided by the Company in relation to any Goods is provided without liability or responsibility on the part of the Company.

12. Return of Goods

12.1 Except for defective Goods supplied by the Company, the Company may determine whether or not to accept a return of the Goods in its absolute discretion.

12.2 The Company may accept the return of Goods which were incorrectly delivered, damaged prior to risk passing or which are defective and the manufacturer's warranty covers the defect and the manufacturer agrees to replace or re-supply the Goods. Any acceptance of delivery back from the Customer by the Company prior to the Company accepting responsibility for incorrect delivery or damage pre risk passing or the manufacturer accepting responsibility for the defective Goods will be by the Company as agents for the Customer and is not to be taken as any acceptance of any liability by the Company or on behalf of the manufacturer.

12.3 Where the Company is not the manufacturer or fabricator of the Goods, to the extent permitted by law:

a) claims for damaged Goods or incorrect delivery must be made in writing with full supporting explanation and documentation within three (3) business days of collection or delivery .

b) if the Customer does not make such a claim within three (3) business days of collection or delivery:

- (i) the Customer shall be deemed to have accepted the condition and correctness of the Goods; and
- (ii) the Customer is barred for disputing the delivery or condition of the Goods and is deemed to have accepted liability for those Goods in accordance with these Terms.

12.4 The Customer must return any Goods to the Company's nominated premises at the Customer's cost unless otherwise agreed by the Company. The risk in such Goods remains with the Customer until such time as they are accepted for return by the Company.

12.5 Where any Goods are returned to the manufacturer or supplier they remain at the Customer's risk pending acceptance of liability by the manufacturer. The Customer is to pay the freight and other cost of returning the Goods unless the reason for return is directly and wholly caused by an error of the Company or the manufacturer in which case only the freight for the return will be paid for by the Company or manufacturer.

12.6 Except for defective Goods supplied by the Company, Goods returned for credit will only be considered for acceptance subject to the following conditions:-

- a) Goods returned must have been incorrectly supplied or damaged prior to risk passing;
- b) Goods returned must not be obsolete, incomplete, damaged or otherwise imperfect;
- c) Goods must not be returned unless purchase invoice numbers are advised and return freight charges are paid by the Customer and prior arrangement in writing is given by the Company;
- d) Goods accepted for return must be in the original packing or as supplied and remain in good condition;
- e) the amount of credit allowed in respect of Goods returned, if any, may be subject to a service or restocking charge at the Company's rate currently in effect, unless the agreement specifically states otherwise; and
- f) the Customer is responsible for Goods lost or damaged in transit during return to the Company or manufacturer.

12.7 Non-stocked and specially made Goods, or Goods otherwise stated by the Company to be non-returnable, cannot be returned to the Company.

13. Company Connection

13.1 The Customer must not advertise or publish that the Customer and the Company have a contract for the supply of Goods or to refer to the Company in any advertising and/or merchandising material without first obtaining the prior written consent of the Company.

14. Force Majeure

14.1 The Company is not liable for the cancellation or partial delivery of any Order or part Order if performance by the Company is prevented or delayed directly or indirectly by any cause beyond the reasonable control of the Company whether such cause existed or was foreseeable at the date of acceptance of the Order by the Company or not.

15. Breach and Termination

15.1 In the event that:

- a) the Customer breaches these Terms or the terms of any Credit Application (including any warranty) and has not remedied that breach; or
- b) the Customer commits an act of bankruptcy or insolvency or enters into external administration or has a receiver appointed (to the extent permitted by law); or
- c) the credit facility provided under any Credit Application is terminated or suspended, then, without limiting any other rights of the Company;
- d) any amounts owing to the Company by the Applicant then unpaid whether or not due under these Terms or the terms of any Credit Application shall become immediately due and payable; and
- e) the Company may immediately terminate or suspend the Agreement or any Quote or Order by written notice to the Customer.

15.2 This clause 15 survives termination of the Agreement.

16. Privacy Policy

16.1 The Customer hereby agrees to the terms of the Company's privacy policy, which are available on <https://www.gamart.com.au/Privacy>

17. Trust

17.1 If the Customer is the trustee of a trust (whether disclosed to the Company or not), the Customer warrants to the Company that:

- a) the Customer enters into the Agreement in both its capacity as trustee and in its personal capacity;
- b) the Customer has the right to be indemnified out of trust assets;
- c) the Customer has the power under the trust deed to enter into the Agreement; and
- d) the Customer will not retire as trustee of the trust or appoint any new or additional trustee without advising the Company.

17.2 The Customer must give the Company a copy of the trust deed upon request.

18. GST

18.1 Any consideration or payment obligation in these Terms, any Quote or tax invoice is exclusive of GST unless expressly stated otherwise.

18.2 If a Supply made under or in connection with these Terms is a Taxable Supply for which the consideration is a payment of money:

- a) the consideration for the Supply is increased by an additional amount equal to the amount of that consideration multiplied by the relevant GST rate; and
- b) the additional amount under subclause (a) is payable upon receipt of a tax invoice in a form which complies with the GST Law at the time of payment.

18.3 The Customer must be registered for GST, unless otherwise agreed.

19. General

19.1 If any dispute arises in relation to Goods supplied by the Company to the Customer the Company may by notice to the Customer at any time prior to determination by a court require that such dispute or part thereof be determined by arbitration according to law. The arbitration is to be conducted in accordance with the relevant Commercial Arbitration Act (of whatever name) of the State or Territory nominated as being the governing law and in the capital city of that State or Territory. The Company may give notice that any dispute with the Customer is arbitrated with any other dispute relating to the same Goods or issues. There is to be a single arbitrator appointed by agreement or failing agreement by the president of the law society of that State or Territory. The arbitrator's decision is final and binding subject to any right of appeal under the relevant Commercial Arbitration Act.

19.2 The reference of a dispute to arbitration does not affect the Customer's obligation to pay the price of Goods when due which must be paid without deduction or equitable or other set off pending the resolution of any dispute whether referred to arbitration or otherwise.

19.3 All prices provided or advertised by the Company are in Australian dollars unless otherwise expressly stated.

19.4 These terms will be governed by and construed in accordance with the laws of New South Wales or such other State or Territory of Australia as the Company directs and the Customer irrevocably submits to the exclusive jurisdiction of the courts of New South Wales or, if directed the Company, a competent court in the capital city of the State or Territory nominated by the Company.

19.5 Expressions defined in brackets in these Terms will be given the meaning where defined throughout these Terms whether or not the definition is used again before or after where the expression is defined.

19.6 The Company does not waive a right, power or remedy if it fails to exercise or delays in exercising the right, power or remedy. A single or partial exercise of a right, power or remedy does not prevent another or further exercise of that or another right, power or remedy. A waiver of a right, power or remedy must be in writing and signed by the party giving the waiver.

19.7 If any of these terms are or later become illegal or unenforceable, the illegal or unenforceable part of those terms are taken to be severed from these terms, but all other terms remain in place.

19.8 In these Terms: (a) a word denoting the singular includes the plural and vice versa; (b) a word denoting a gender includes each other gender; (c) a word denoting a natural person includes an entity and vice versa; and (d) a reference to a clause is a reference to a clause in this form. Headings are for ease of reference only and shall be ignored in construing these Terms.
